

(Reference) SUMMARY OF FINANCIAL RESULTS (REIT)
For the 1st Fiscal Period Ended February 29, 2016

April 14, 2016

REIT securities issuer: Nomura Real Estate Master Fund, Inc. (“NMF”) Stock exchange listing: Tokyo Stock Exchange
 Securities code: 3462 (Note 1)
 Representative: Satoshi Yanagita, Executive Director URL: <http://www.nre-mf.co.jp/english/>
 Asset management company: Nomura Real Estate Asset Management Co., Ltd.
 Representative: Norio Ambe, President and Chief Executive Officer
 Inquiries: Kenichi Okada, Head of NMF Investment Management Group TEL: +81-3-3365-8767

Scheduled date of filing of securities report: May 27, 2016
 Scheduled date of commencement of distribution payout: May 19, 2016
 Preparation for supplementary materials on financial results: Yes
 Holding of briefing session on financial results: Yes (for institutional investors and analyst)

[Amounts are rounded down to the nearest million yen]

1. Financial Results for the Fiscal Period Ended February 29, 2016 (1st period) (from October 1, 2015 to February 29, 2016)

(1) Operating Results [% figures are the ratio of increase (decrease) compared with the previous period]

	Operating Revenues		Operating Profit		Ordinary Income		Net Income	
	million yen	%	million yen	%	million yen	%	million yen	%
Period ended February 29, 2016	24,313	(-)	6,483	(-)	4,050	(-)	4,048	(-)

	Net Income per Unit	Return on Unitholders' Equity	Ratio of Ordinary Income to Total Assets	Ratio of Ordinary Income to Operating Revenue
	yen	%	%	%
Period ended February 29, 2016	1,087	0.8	0.4	16.7

(Note 1) NMF's accounting period for the fiscal period ended February 2016 is the 152 days from October 1, 2015 to February 29, 2016.

(Note 2) Since the fiscal period ended February 2016 is the first fiscal period, the operating status of only this fiscal period is indicated. Moreover, since percentages for operative revenues, operating profit, ordinary income and net income are for rates of period-on-period change, nothing is indicated in those sections. The same applies hereinafter

(2) Distributions

	Distribution per Unit (excluding distribution in excess of Net Income)	Total Distributions (excluding distribution in excess of Net Income)	Distribution in excess of Net Income per Unit	Total Distributions in excess of Net Income	Distribution Per Unit (including distribution in excess of Net Income)	Total Distributions (including distribution in excess of Net Income)	Distribution Payout Ratio (Note 2)	Ratio of Distributions to Net Assets
	yen	million yen	yen	million yen	yen	million yen	%	%
Period ended February 29, 2016	317	1,179	1,902	7,079	2,219	8,259	29.1	0.2

(Note 1) Of the 1,902 yen of distribution per unit in excess of earnings in the fiscal period ended February 2016, 1,649 yen is distribution of the reserve for temporary difference adjustments and 253 yen is distribution reducing unitholders' capital for tax purposes. Furthermore, ratio of decreasing surplus is 0.003.

(Note 2) Distribution Payout Ratio is calculated using below formula and rounded off to first decimal place.

Distribution Payout Ratio = Total Distributions (excluding distribution in excess of Net Income) / Net Income × 100
 Distribution Payout Ratio will be 204.0% using the formula:

Distribution Payout Ratio = Total Distributions (including distribution in excess of Net Income) / Net Income × 100

(Note 3) Ratio of Distributions to Net Assets is calculated using below formula and rounded off to first decimal place.

Ratio of Distributions to Net Assets = Distribution Per Unit (excluding distribution in excess of Net Income) / {(Net Assets per Unit at the beginning of the fiscal period + Net Assets per Unit at the end of the fiscal period) / 2} × 100

Ratio of Distributions to Net Assets will be 1.7% using the formula:

Ratio of Distributions to Net Assets = Distribution Per Unit (including distribution in excess of Net Income) / {(Net Assets per Unit at the beginning of the fiscal period + Net Assets per Unit at the end of the fiscal period) / 2} × 100

(3) Financial Position

	Total Assets	Net Assets	Net Assets to Total Assets	Net Assets per Unit
	million yen	million yen	%	yen
Period ended February 29, 2016	928,297	477,601	51.4	128,318

(4) Status of Cash Flows

	Net Cash Provided by (used in) Operating Activities	Net Cash Provided by (used in) Investing Activities	Net Cash Provided by (used in) Financing Activities	Cash and Cash Equivalents at End of Period
	million yen	million yen	million yen	million yen
Period ended February 29, 2016	8,725	(11,500)	(469)	58,325

2. Earnings Forecasts for the Fiscal Period Ending August 31, 2016 (2nd period) (from March 1, 2016 to August 31, 2016)

[% figures are the ratio of increase (decrease) compared with the previous period]

	Operating Revenues		Operating Profit		Ordinary Income		Net Income		Distribution per Unit (excluding distribution in excess of Net Income)	Distribution in excess of Net Income per Unit	Distribution per Unit (including distribution in excess of Net Income)
	million yen	%	million yen	%	million yen	%	million yen	%	yen	yen	yen
August 31, 2016	30,062	24.0	10,715	65.3	8,330	105.7	8,329	105.8	2,237	523	2,760

(Reference) Forecast net income per unit for the fiscal period ending August 31, 2016: 2,237 yen

*Other

(1) Changes in Accounting Policies, Changes in Accounting Estimates and Retrospective Restatement

- | | |
|---|------|
| ① Changes in accounting policies accompanying amendments to accounting standards, etc.: | None |

③ Figure of silent partnership in which NMF invests

A. Godo Kaisha Osaka Hirakata Project Silent Partnership

Godo Kaisha Osaka Hirakata Project (Note 1)	
Beneficiary interest in real estate in trust, etc. (Note 2) ¥3,692 million	Non-recourse loans ¥2,747 million
	Silent partnership equity interest, etc. (Note 3) ¥945 million

(Note 1) Mizuho Trust & Banking Co., Ltd. is appointed as the asset manager of the G.K.

(Note 2) The asset is beneficiary interest in real estate in trust mainly in “Hirakata Logistics Center”.

(Note 3) NMF has invested 100 million yen (approx. 10.6%) in the silent partnership equity, etc.

(Note 4) As stated in “2. Management Policy and Management Status / (2) Management Status / ③ Significant Subsequent Events / (Reference) A. Acquisition of the asset” below, NMF has exercised the preferential negotiation right granted upon the acquisition of the silent partnership equity interest, and concluded the purchase and sales agreement of trust beneficiary interest in mainly “Osaka Kuzuha Logistics Center” with Godo Kaisha Osaka Hirakata Project

2. Management Policy and Management Status

(1) Management Policy

(1.1) Investment Policy

① Basic Policy

NMF invests in real estate, leaseholds of real estate and superficies or beneficial interests of trusts in which only these assets are entrusted, from among “real estate and other assets” described in the Ordinance for Enforcement of the Act on Investment Trusts and Investment Corporations, with its basic policy being to aim in its management to secure stable medium- to long-term income and deliver steady portfolio growth (Article 27 of the Articles of Incorporation). Under this basic policy, NMF will combine its “diversified type strategy” which will pursue both steady external growth through diverse investment opportunities presented through investments in facilities of various sectors including logistics facilities, retail facilities, offices and residential facilities and stabilization of income backed by the differences in the income characteristics of each sector, with the “large-scale REIT strategy” which enhances the effects of diversification of properties

and tenants and aims to establish a stable portfolio that controls the volatility of profitability and asset values, and with the “utilization of the leasing value chain” which is the framework for external growth through the acquisition of rental revenue-generating real estate developed by the Nomura Real Estate Group, the sponsor, and internal growth through management that utilizes the features of real estate of various sectors, with an aim to realize the securing of stable medium- to long-term income and delivery of steady portfolio growth and increase unitholder value.

Moreover, NMF will adopt an investment strategy that centers on the Greater Tokyo area (Tokyo, Kanagawa, Chiba and Saitama prefectures) which has strong tenant demand while also considering regional diversification through the three major metropolitan areas and cabinet-order designated cities, etc.

The three major metropolitan areas mentioned above refers to the Tokyo metropolitan area, Chukyo area and the Kinki area.

Tokyo metropolitan area: Tokyo, Kanagawa, Chiba, Saitama, Tochigi, Gunma, Ibaraki and Yamanashi prefectures

Chukyo area: Aichi, Gifu and Mie prefectures

Kinki area: Osaka, Kyoto, Hyogo and Nara prefectures

Moreover, other major cities including cabinet-order designated cities are cabinet-order designated cities, prefectural capitals, and cities with a population of 100,000 persons or more, excluding the Greater Tokyo area, the Chukyo area and the Kinki area.

A. Realizing Stable Growth through Investment in Diverse Real Estate (Diversified Type Strategy)

Through the diversified type strategy, NMF will pursue both stability and growth potential of income through the effects of diversifying sectors and aim to promote selective investments in prime properties and expand investment opportunities through an increased ability to collect property information.

NMF’s portfolio is comprised of properties with stable profitability not easily affected by economic fluctuations such as logistics facilities, retail facilities (located in residential areas), residential facilities, etc. which are not easily affected by the economic fluctuations and from which stable income is expected and as well as properties whose income can be expected to grow through economic fluctuations such as offices, retail facilities (located near stations), etc. It is believed that both stability and growth potential of income can be pursued through investment that focuses on the differences in lease transaction practices such as in contract periods and contract forms (normal lease and fixed-term lease) as well as in property-specific income features.

Furthermore, investment targets in the J-REIT market initially focused on offices are becoming more diversified, incorporating retail facilities, residential facilities, logistics facilities and even hotels, factories, infrastructure and healthcare facilities. Further expansion of this trend is expected going forward with the future growth of the J-REIT market. Given these circumstances surrounding the J-REIT market, NMF will pursue further growth by responding to diversification of investment targets utilizing the features of a diversified-type REIT and expanding investment opportunities.

B. Portfolio Management that Utilizes the Diversification Effect (Large-Scale REIT Strategy)

NMF has an asset size of 261 properties worth ¥792.6 billion (as of the end of February 2016; based on acquisition price) and it believes it is able to reduce the risks of decreased revenues and maldistribution of portfolio properties as well as the risks associated with tenant concentration through the effects of diversifying its portfolio. Against the backdrop of the reduction of these risks, NMF will actively promote various measures to increase the portfolio’s values. Specifically, responding to the aging of portfolio properties is a matter that can’t be avoided for an investment corporation which will own real estate and such for long periods of time and so measures aimed at increasing the portfolio value will be actively promoted such as implementing value-adding work utilizing depreciation, replacement of properties and rebuilding in collaboration with the sponsor. Furthermore, utilizing the advantages of being a large-scale REIT, internal growth will be enhanced by advancing consolidation and efficiency in property management and endeavoring to reduce various expenses.

In addition to such measures, NMF will promote the increase of the asset size and market size,

reduction of financial costs and diversification of funding methods with an aim to increase financial stability backed by increased funding capabilities.

C. Promoting Mutual Growth with the Nomura Real Estate Group (Utilization of Leasing Value Chain)

The Nomura Real Estate Group is a corporate group comprised of the consolidated subsidiaries, etc. of Nomura Real Estate Holdings such as Nomura Real Estate Development Co., Ltd. Business segments are divided into the Residential Business, Leasing Business, Asset Management Business, Property Brokerage and CRE Business, Property & Facility Management Business and Other Businesses. This diverse range of businesses is operated as a comprehensive real estate corporate group.

NMF, in addition to receiving external growth support through the property acquisition pipeline by way of provision of information on real estate, etc. from Nomura Real Estate Development Co., Ltd., has established a management pipeline with the dual functions of sharing information and know-how regarding rental revenue real estate among Nomura Real Estate Group companies as well as jointly deliberating and promoting measures necessary for increasing brand value and profitability of properties in both hard and soft aspects, and will actively promote the strengthening of the brand powers of properties developed by the sponsor such as PMO, PROUD FLAT, GEMS and Landport as well as increase the value of NMF's portfolio properties. Through this, a positive cycle of mutual growth will be established among NMF and Nomura Real Estate Group companies with an aim to increase unitholder value.

By maximally utilizing the planning, development and management capabilities associated with real estate of various sectors in the Nomura Real Estate Group, NMF will promote optimal portfolio management and the steady growth of the asset size backed by the rich pipeline and aim to secure stable income in the medium to long term.

② Investment Policy

A. Portfolio Construction Standards

NMF will invest in facilities from a variety of sectors including logistics facilities, retail facilities, offices and residential facilities (including real estate backing real estate, etc. and real estate backed securities (both as described in Article 28 Paragraph 1 of the Articles of Incorporation) excluding real estate). Based on the Asset Management Company's judgements in light of real estate market trends, it is NMF's policy to aim to secure stable income in the medium to long term through well-balanced diversified investments in these assets (NMF will not establish limits for investment ratios of sectors).

Furthermore, NMF's main target investment area will center on the three major metropolitan areas (Tokyo metropolitan area, Chukyo area and Kinki area) and also include major cities including cabinet-ordinance designated cities and their surrounding areas. In its investments NMF will promote diversification of the locations of portfolio properties to be acquired with the aim of stabilizing cash flow by reducing the risks associated with earthquakes, fluctuations of local economies and rental conditions, etc.

NMF will construct its portfolio using the following geographical configurations as targets, focusing most on the density of tenant demand and also being aware of regional diversification.

Greater Tokyo area (Tokyo, Kanagawa, Chiba and Saitama prefectures)	75% or more
Chukyo area (Aichi, Gifu and Mie prefectures)	25% or less
Kinki area (Osaka, Kyoto, Hyogo and Nara prefectures)	
Other cities	

(Note 1) The ratios are based on acquisition price (for properties inherited through the merger this means the capitalized amount at the time of merger) and exclude taxes and other expenses related to acquisition. Moreover, there may be temporary divergence from the above ratios.

(Note 2) "Other cities" refers to cabinet-order designated cities, prefectural capitals, and cities with a population of 100,000 persons or more as well as surrounding areas of these cities, excluding the Greater Tokyo area, the Chukyo area and the Kinki area

B. Investment Standards

1. Property Selection Standards by Sector

(i) Logistics Facilities

a) Definition of Sector

Logistics facilities are defined as real estate targeted for acquisition at which more than 50% of the gross leasable area is provided for logistics facilities use (Note) at the point of acquisition.

When investing only in a building's site or in superficies or leasehold rights of such a site (real estate that constitutes the main body of a building's site and superficies or leasehold rights of such sites are hereinafter referred to as "sites, etc."), the sector of the site, etc. shall be the sector whose definition matches or is expected to match the building on the site, etc. (the same is true for all sectors).

(Note) Investments can also target consumer warehouses (trunk rooms, rental storage space, etc.) and in such a case the property size standards in b) below shall not apply.

b) Property Size (Note 1)

In principle, the gross floor area shall be 10,000 m² or more (Note 2).

In principle, when investing in land the site area shall be 10,000 m² or more.

(Note 1) Investment shall be allowed even if the property does not meet the above standards for gross floor area and site area if the acquisition of the property will secure or expand synergetic effects with already-owned properties or opportunities for acquiring properties, or if other benefits are expected (including the following cases) (the same is true for all sectors).

- If the property is adjacent to a property already owned and it is deemed that pursuit of higher value can be expected such as through additional work to already-owned properties or integral rebuilding
- If the property is included in a bulk acquisition.
- If the property is developed by a provider with whom ongoing transactions are expected.

(Note 2) The gross floor area is determined based on the gross floor area indicated in the registry or in other records and takes into account the gross floor area as stipulated in the Building Standards Act (the same is true for all sectors).

(ii) Retail Facilities

a) Definition of Sector

Retail facilities are defined as real estate targeted for acquisition at which more than 50% of the gross leasable area is provided for retail facilities use (Note) at the point of acquisition.

(Note) NMF classifies retail facilities into the following two types.

Classification	Station area	Residential area
Overview	Facilities that rely on the ability of (terminal) station to gather customers	Facilities backed by a population of nearby residents
Main evaluation items	<ul style="list-style-type: none"> • Number of arriving and departing passengers at the station • Distance to the station (accessibility) • Commercial accumulation status (vibrancy) • Visibility • Synergy with other retail facilities • Specifications of building facilities 	<ul style="list-style-type: none"> • Trade area population • Transportation access • Trends of competing stores • Substitutability of tenants and sector • Length of lease contract period • Tenant credits
Main types of tenants	<ul style="list-style-type: none"> • Service sector tenants • Merchandise stores • Restaurants, etc. 	<ul style="list-style-type: none"> • Food supermarkets • General supermarkets • Furniture retailers • Sports clubs, etc.

b) Property Size

Classification	Station area	Residential area
Building	In principle, the gross floor area shall be 1,000 m ² or more.	In principle, the gross floor area shall be 1,500 m ² or more.
Land	When investing in land, land will be considered a target for investment regardless of the site area.	When investing in land, in principle the site area shall be 1,500 m ² or more.

c) Property Selection Policy

In addition to the standards in “2. Property Selection Standards Applied Regardless of Sector” described below, investment in retail facilities will consider the balance of profitability and stability as a property selection policy.

Since retail facilities have high volatility of profitability through changes in consumers’ preferences, property selection will focus on access, substitutability, lease agreement terms and tenant credibility in addition to commercial accumulation status (vibrancy) and trade area population.

(iii) Offices

a) Definition of Sector

Offices are defined as real estate targeted for acquisition at which more than 50% of the gross leasable area is provided for office use (Note) at the point of acquisition.

(Note) The sections occupied by tenants for restaurants and shops are not included.

b) Property Size

In principle, the gross floor area shall be 3,300 m² or more.

(iv) Residential Facilities

a) Definition of Sector

Residential facilities are defined as real estate targeted for acquisition at which more than 50% of the gross leasable area is provided for residential facility use (Note) at the point of acquisition.

(Note) Residential facilities refer to the following facilities, etc. Regarding residential facilities other than rental apartments, in addition to normal lease schemes, management entrustment schemes for dedicated operators that will manage the facility will be considered based on the property’s management form.

Rental apartments (Including company housing (whole leasing to companies) and student condominiums (where occupants must be students))	Residential facilities used for the purpose of general residency and whose leasing is in principle for more than a year.
Condominiums for short-term stay	Residential facilities with furniture that are used for the purpose of short-term stay on a weekly or monthly basis (less than a year).
Service apartments	Residential facilities with furniture and that provide services such as linen (bedding replacements), front desk services and concierge services.
Dormitories	Residential facilities that are used as so-called dormitories such as with the establishment of public spaces, facilities for the provision of food, etc.
Housing for the elderly	Residential facilities with nursing care services.

(v) Other Sectors

There are many sectors in other real estate targeted for investment and specific limits on size and such will not be established in light of the diversity of investment standards according to sectors. Investment in other sectors will be made upon comprehensive considerations of locality by location characteristics, ease of securing substitute tenants, general versatility of facilities, etc. of each individual real estate targeted for investment.

2. Property Selection Standards Applied Regardless of Sector

The following items will be considered for acquisition of all properties regardless of sector.

(i) Location

The regions targeted for investment for properties in all sectors shall center on the three major metropolitan areas and also include major cities including cabinet-ordinance designated cities and their surrounding areas.

In addition to the above, in principle micro areas where properties are situated must be able to expect sufficient stability considering rental demand.

(ii) Rights Relations

In principle, rights relations must be ownership rights. Regarding consideration of investment in real estate that is jointly owned or in real estate with compartmentalized ownership, judgement will be made for each property upon comprehensive consideration of the following.

- ① For joint ownership, the existence of measures to control claims for division of or sale of interest in jointly-owned property
- ② Type and ratio of interest of other co-owners and holders of compartmentalized ownership
- ③ Method of management and status of reserve of repair reserves, security deposits, etc. including parts born by the other holders of compartmentalized ownership
- ④ The existence, period, etc. of collateral of interests of other co-owners and exclusive areas of other holders of compartmentalized ownership

Moreover, when considering investment in a property whose land rights is a leasehold, the terms of the land's lease agreement will be taken into account.

(iii) Investment in Land (Including Land with Leasehold Rights)

When investing in a site, etc. only, investment decisions will be made upon consideration of such matters as the credibility and type of the owner of the building on the site, etc., the terms of the superficies agreement or the land's lease agreement with the owner as well as the possibility of conversion of use, possibility of development and fluidity for when a sale would be implemented.

For land with leasehold rights, since maintenance fees and the burden of repair investments are generally small and stable revenue can therefore be expected in addition to amortization being unnecessary and therefore that the ratio of dividends to rental revenue can be expected to be increases, investments will be made in light of these features of land with leasehold rights.

(iv) Building Age

Regarding building age, projections for capital expenditure (cost) resulting from aging, etc. according to the building age will be made and consideration will be given to the leveling off of capital expenditure in the whole portfolio.

(v) Environment, Geology, etc.

In principle the following standards must be met.

- No problems with regard to the status of use or management of hazardous substances are pointed out in the building condition survey report (engineering report).
- There are no concerns of soil contamination (this includes cases where surveys have confirmed that there is a small health risk to users and to the surrounding areas).

Investment shall be allowed even if the above standards are not met as long as it is possible to meet the standards by implementing construction work and, furthermore, sufficient profitability can be expected even when adding the expenses for the work and if the impact on NMF's cash flow is minimal.

(vi) Earthquake Resistance

In principle the standard for earthquake resistance is that the property must meet new earthquake resistance standards or must have earthquake resistance of the same level or more and that the PML must be below 20%.

Investment shall be allowed even if these standards are not met as long as it is possible to meet the standards by implementing seismic strengthening work and, furthermore, sufficient profitability can be expected even when adding the expenses for the work and if the impact on NMF's cash flow is minimal.

(vii) Investment Assuming Use Conversion

When considering investment assuming conversion to a sector other than the existing sectors, judgements will be made by estimating the current status and situation after conversion with regard to profitability and tenant composition. In addition, whether or not conversion is easy will be deliberated in light of the costs and time period required for the conversion work and changes of tenants.

(viii) Tenant Composition

Investment will be made in properties where the tenants' credibility and purpose of use are appropriate.

In principle investment will be made in properties targeting multiple tenants. Regarding properties leased to a single tenant or to a small number of tenants, investment decisions will be made upon comprehensive consideration of the content of lease agreements, the credibility of the companies, etc. according to the commercial register of said companies or to surveys by company analysis firms, expected ability to attract tenants after departures, characteristics of the sector, etc.

(ix) Investment in Non-Operating Real Estate (Real Estate under Development)

In principle, based on NMF's basic policy of securing stable income, NMF will invest in real estate that is already being leased and is generating income at the point of acquisition.

Regarding investment in non-operating real estate (real estate under development), investment decisions will be made upon consideration of the impact that risks related to the completion, handing over, etc. of buildings as well as expected income after operations begin based on the forecasts of when operations will begin and of the situation for securing tenants, etc. will have on the entire portfolio as well as the items in "(x) Points in Implementing Forward Commitments" below.

(x) Points in Implementing Forward Commitments

The following points will be considered when implementing forward commitments (postdated sale agreements where the conclusion and delivery of the property is scheduled over one month ahead of the contract date, and other similar agreements).

- Points concerning Cancellation Penalties

With regard to cancellation penalties for contractual defaults, investment decisions will be carefully made upon sufficient inspection of the impact that the level of the cancellation penalty will have on the entire portfolio's balance, dividend level, etc. (including the delisting standards of Tokyo Stock Exchange, Inc.).

- Upper Limit of Period, Methods of Procuring Settlement Funds, etc.

With regard to the period between the conclusion of the sale agreement and the handing over of the property, the upper limit of the period shall be that which is reasonable for each individual property in comparison with efforts for development projects and such, and investment decisions will be carefully made based on full comprehension of the risks of fluctuations in the financial environment, real estate market, etc. during the period. With regard to the methods of procuring settlement funds, as for the point of deciding an acquisition the method of procuring acquisition funds, as well as its feasibility, for settlement according to the acquisition amount will be verified such as regarding the use of credit facilities such as commitment lines, while for the point of settlement the optimal funding method will be chosen according to changes in the funding environment reflected in financial markets, the investment corporation, bond market (including short-term investment corporation bonds), relations with partner financial institutions, etc.

- Points considering Changes in Asset Value

If there are possibilities of significant changes in the appraisal value during the period from the conclusion of the sale agreement to the handing over of the property due to changes in economic conditions and such, the appraisal value will be reviewed upon the acquisition of another appraisal. In addition, if the appraisal value is lower than the acquisition price, appropriate measures will be taken upon making judgements such as on the necessity of

terminating the agreement through payment of a penalty or renegotiating the sale price.

• Changes in Conditions

If the seller implements a change of conditions or if a tenant fails to make payment and terminates the lease agreement during the period from the conclusion of the sale agreement to the handing over of the property, judgements will be carefully made with regard to the response upon sufficient verification of the impact on the sale price and the whole portfolio, on condition of the prior consent of the buyer.

C. Property Survey (Due Diligence) Standards

When investing in real estate related assets, property surveys (due diligence) will be implemented for the purpose of understanding the property features of the real estate (superiority of location, functions and size of the building, rent level, existence of competing properties, etc.). The items of the due diligence survey are as follows

<Main Due Diligence Items>

Survey items		Content
Physical survey	Land survey	<ul style="list-style-type: none"> • Confirmation of acreage and boundaries • Surrounding environment, regional features and transportation access
	Building survey	<ul style="list-style-type: none"> • Confirmation through building condition survey report (engineering report) • Building and facility specifications, building defects, earthquake resistance and earthquake risks, etc. • History of repairs, repair plans (CAPEX), management agreements and management status
	Environmental survey	<ul style="list-style-type: none"> • Ground geology, buried objects and soil pollution • Status of hazardous substances (asbestos, PCB, etc.)
Legal survey	Rights relations	<ul style="list-style-type: none"> • Rights relations such as ownership rights and rights of pledge • Form of ownership such as joint ownership and compartmentalized ownership • Existence and status of litigation and the possibility of disputes
	Legal limitations	<ul style="list-style-type: none"> • Limitations such as through laws (including ordinances and agreements) • Legal compliance and status of conformity
	Contractual relations	<ul style="list-style-type: none"> • Seller condition survey (risk of denial of transaction, etc.) • Content of agreements such as sale agreements and lease agreements
Economic survey	Tenant survey	<ul style="list-style-type: none"> • Content of agreements (contract form, rent, contract period, etc.) • Existence of uncollected money and tenant credibility
	Market survey	<ul style="list-style-type: none"> • Analysis of trade area, industrial structure and tenant demand • Trends of competing properties (sales, rent, occupancy rate, etc.) • Plans of development nearby
	Profitability survey	<ul style="list-style-type: none"> • Appraisal by real estate appraisers (price survey) • Analysis of property's past balance

(1.2) Investment Targets

NMF sets forth its policy in its Articles of Incorporation (Article 29)

① Assets Targeted for Investment

A. NMF shall invest in the specified assets set forth below.

(1) Real estate

(2) Each of the assets set forth below:

- (i) Leaseholds of real estate
- (ii) Surface rights
- (iii) The assets set forth in (1) or (i) or (ii) above under foreign laws and regulations
- (iv) Beneficial interests of trusts formed by entrustment of real estate, leaseholds of real estate, surface rights or the assets set forth in (iii) above (including comprehensive trusts (*bokatsu shintaku*) formed by entrustment of real estate, together with money appertaining thereto)
- (v) Beneficial interests of money trusts, the purpose of which is to invest the trust properties mainly in real estate, leaseholds of real estate, surface rights or the assets set forth in (iii) above
- (vi) Equity interests in such agreements as shall provide that, in consideration of contribution of either of the parties in order to finance an investment by the other party in (1) the real estate or (2) the assets set forth in (i) through (v) above, such other party shall invest the properties so contributed in such assets mainly and make distribution of profits from such investment (the “equity interests in anonymous associations (*tokumei kumiai*) relating to real estate”);
- (vii) Beneficial interests of money trusts the purpose of which is to invest the trust properties mainly in equity interests in anonymous associations relating to real estate
- (viii) Assets having a nature similar to the assets set forth in (iv) through (vii) formed in accordance with foreign laws and regulations

(3) The following certificates invested primarily in real estate, etc. (including rights that should be represented by the certificates in cases where certificates representing such rights have not been issued):

- (i) Preferred capital contribution certificates (as defined in the Act Concerning Securitization of Assets (Act No., 105 of 1998; including subsequent amendments; the “Act on Securitization of Assets”))
- (ii) Beneficial certificates (as defined in the Investment Trust Act)
- (iii) Investment unit certificates (as defined in the Investment Trust Act)
- (iv) Beneficial certificates of specified purpose trust (as defined in the Act on Securitization of Assets (excluding such falling under the category of the assets set forth in (2) (iv), (v) or (vii) above))
- (v) Equity interests certificates in anonymous association (meaning equity interests in anonymous associations as set forth in Article 2, Paragraph 2, Item 5 of the Financial Instruments and Exchange Act (Act No. 25 of 1948; including subsequent amendments) (excluding such falling under the category of the assets set forth in (2) (vi) above))
- (vi) Assets having a nature similar to the assets set forth in (i) through (v) formed in accordance with foreign laws and regulations

B. NMF may invest in the following specified assets, in addition to the specified assets set forth in A. above, including rights that should be represented on the certificates in cases where certificates representing such rights have not been issued.

(1) The specified assets falling under any of the following items:

- (i) Deposits
- (ii) Negotiable deposits
- (iii) Monetary receivables (in this Paragraph B., as defined in the Enforcement Order for the Investment Trust and Investment Corporation Act (Cabinet Order No. 480 of 2000; including subsequent amendments; the “Investment Trust Act Enforcement Order”))
- (iv) Government bonds (as defined in the Financial Instruments and Exchange Act)
- (v) Municipal bonds (as defined in the Financial Instruments and Exchange Act)
- (vi) Bonds issued by a juridical person pursuant to a special law (as defined in the Financial Instruments and Exchange Act)
- (vii) Shares (as defined in the Financial Instruments and Exchange Act)
- (viii) Commercial papers (as defined in the Financial Instruments and Exchange Act)

- (ix) Specified bonds provided for in the Act on Securitization of Assets (as defined in the Act on Securitization of Assets)
 - (x) Beneficial interests of money trusts the purpose of which is to invest the trust properties mainly in the assets set forth in (i) through (ix) above
 - (xi) Securities (securities as defined in the Investment Trust Act; excluding those assets set forth in Paragraph A above and Paragraph B that fall under securities, hereinafter the same)
- (2) Rights relating to a derivative transaction (as defined in the Investment Trust Act Enforcement Order)
- (3) Facilities generating renewable energy (as defined in the Investment Trust Act Enforcement Order)
- C. NMF may invest in the following rights, etc., the acquisition of which is considered to be necessary or useful in connection with real estate related assets.
- (1) Trademarks and trademark equivalents (i.e., trademarks and exclusive or standard trademark use rights) under the Trademark Act (Act No. 127 of 1959; including subsequent amendments)
 - (2) Copyrights as defined in the Copyright Act (Law No. 48 of 1970; including subsequent amendments)
 - (3) Movables (of those movables specified in the Civil Code (Act No. 89 of 1896; including subsequent amendments), facilities, fixtures, and other items attached to the real estate constructional or for the use of real estate) excluding that which pertains to facilities generating renewable energy
 - (4) Rights to use the source of hot springs provided for in the Hot Spring Act (Act No. 125 of 1948; including subsequent amendments) and the facilities relating to such hot springs
 - (5) Carbon dioxide equivalent quotas as defined in the Act on Promotion of Global Warming Countermeasures (Act No. 117 of 1998; including subsequent amendments) and any other rights similar thereto or emission rights (including emission rights regarding greenhouse gases)
 - (6) Other rights the acquisition of which is necessary or useful, in connection with investments in real estate related assets, etc.
- D. In addition to the assets specified in the preceding paragraphs A. through C. above, NMF may acquire, other than assets owned for investment purposes, assets such as trademarks relating to NMF's trade name and other assets owned in conjunction with the operation of NMF.

(1.3) Distribution Policy

① Distribution Policy

In principle, NMF will pay out distributions based on the following policies (Article 36 Paragraph 1 of the Articles of Incorporation).

- A. Distributable amounts arising from investment of NMF's Investment Assets (the "Distributable Amount") shall be income calculated on each settlement date in accordance with the Investment Trust Act and generally accepted corporate accounting principles in Japan (being the amount calculated by deducting the total amount of the aggregate contribution amount, the surplus contribution amount, and valuation and conversion differences from the amount of the total asset minus the total debt (i.e. the net assets) shown in the balance sheet of NMF as of each Settlement Date).
- B. Distribution amounts shall be determined by NMF and such distribution amounts shall exceed 90% of the earnings available for distribution of NMF (in case of change in the calculation method of such amount due to amendment to laws and regulations etc., the amount as amended) as defined in the special taxation measures for investment corporations as set forth in Article 67-15, Paragraph 1 of the Special Taxation Measures Act (the "Special Provisions of Taxation on Investment Corporations") (provided however, the Distributable Amounts is the upper limit.). Provided, however, that this will not apply if there is a loss for tax purposes or if there will be no taxable earnings because of carrying a tax loss forward, and in such cases the amount will be reasonably determined by NMF. NMF may accumulate, retain and dispose reserves from the Distributable Amount that are deemed to be necessary for maintaining its Investment Assets or improving the value thereof such as the long-term reserve for

maintenance, payment reserve, reserve for distribution, and other similar reserves and accounts.

- C. Any amount of income or earned income through the settlement date that is not applied to the distribution and retained shall be invested under the basic investment policies and investment stance of NMF.

② Distributions in Excess of Earnings

In order to alleviate the impact of the goodwill amortization and other merger related expenses (the “Merger Expenses, etc.”) on cash distribution, if the total amount of the difference between accounting and tax treatment for each fiscal period is less than the Merger Expenses, etc., the Fund will make distribution in excess of net income by adding such amount up to the amount of Merger Expenses, within the limit as prescribed by the regulations of the Investment Trusts Association, Japan (meaning the entire amount equivalent to the increase in the reserve for temporary difference adjustments plus the amount equivalent to 60/100 of the difference between the cumulative amount of depreciation and amortization recorded as of the end of the relevant calculation period and that of the end of the prior calculation period with respect to the Distribution Reducing Unitholders’ Capital for Tax Purpose (ordinary distribution in excess of net income)).

In the following cases, NMF may distribute an amount in excess of the Distributable Amount equal to the amount of the distribution specified in “① Distribution Policy / B.” *plus* an amount to be determined by NMF up to the amount stipulated by the regulations of The Investment Trusts Association, Japan (Article 36 Paragraph 2 of the Articles of Incorporation).

- A. In cases where NMF aims to mitigate imposition of corporation taxes, etc.
B. In addition to A. above, the immediately preceding item, in cases where NMF deems it appropriate taking into consideration, among other things, the economic circumstances, the trend of the real-estate market, the leasing market or the real estate investment trust market, etc., or the influence, etc. of acquisition and sale of assets, large-scale repair and financing by NMF on the distribution per unit.

③ Method of Distribution of Dividends

The dividends specified in ① and ② above shall be distributed in cash within three months in principle after such settlement date to the unitholders or registered pledgees whose names appear or are recorded as such on the latest unitholders’ list as of the settlement date, in proportion to the respective number of units held by such unitholders (Article 36 Paragraph 3 of the Articles of Incorporation).

④ Discharge of Claim for Distributions

In case the dividends specified in ① and ② above are unclaimed for a period of three full years after the date on which such dividends first become payable, NMF shall be discharged from its payment obligation thereof. Further, any dividends remaining unpaid shall bear no interest (Article 36 Paragraph 4 of the Articles of Incorporation).

⑤ Regulations of The Investment Trusts Association, Japan

Other than that in ① through ④ above, NMF shall follow the regulations of The Investment Trusts Association, Japan with regards to distributions.

(2) Management Status

① Outline of Fiscal Period under Review

NMF was established on October 1, 2015 through the consolidation type merger of the former Nomura Real Estate Master Fund, Inc. (hereinafter the “former NMF”), Nomura Real Estate Office Fund, Inc. (hereinafter “NOF”) and Nomura Real Estate Residential Fund, Inc. (hereinafter “NRF”), and listed its

investment securities (TSE code: 3462) on the Real Estate Investment Trust Section of the Tokyo Stock Exchange on October 2 the same year.

NMF adopts the basic policy of investing primarily in real estate and other assets to secure stable income and steady growth of assets under management over the medium to long term. In order to realize this basic policy, NMF adopts an investment strategy that centers on the Greater Tokyo area (Tokyo, Kanagawa, Chiba and Saitama prefectures) which has strong tenant demand while also considering regional diversification through the three major metropolitan areas and cabinet-order designated cities, etc. By combining the “diversified type strategy” in which investments are made in facilities of a variety of sectors such as logistics facilities, retail facilities, offices and residential facilities with the “large-scale REIT strategy” which pursues the effects of diversifying properties and tenants to make the portfolio more stable as well as with the utilization of the “leasing value chain” with the Nomura Real Estate Group, the sponsor, NMF will aim to increase unitholder value by securing stable income and steady growth of assets under management over the medium to long term.

(Note) “Assets under management” refers to assets that belong to NMF.

Furthermore, “Real estate, etc.” refers to assets defined in Article 29, Paragraph 1 (1) or (2) of NMF’s Articles of Incorporation, and “real estate backed securities” refers to assets defined in Article 29, Paragraph 1 (3) of NMF’s Articles of Incorporation in this report (“Real estate, etc.” and “real estate backed securities” are hereinafter collectively referred to as “real estate related assets.”).

Real estate and the underlying real estate of real estate related assets are together referred to as the “real estate under management” or the “property.”

A. Investment Environment and Management Performance

The Japanese economy has continued on its gentle recovery as there are trends of companies and households being cautious in their economic activities backed by the deceleration of the global economy and such. Though there is a possibility of strengthening negative factors, movements towards an economic improvement can be seen coming into 2016 through various measures such as the Bank of Japan’s additional monetary easing measures. Furthermore, the Japanese economy is expected to head towards positive cycles in the medium to long term with the backdrop of the progression of Abenomics and such.

Under such an environment, the J-REIT market has been experiencing inflow of both domestic and foreign investment capital due to expectation for recovery of the Japanese economy and the real estate market. Backed by such favorable financing environment among other factors, there were continuous active property acquisitions accompanying new J-REIT listings and capital increases through public offering by existing J-REITs.

In terms of logistics facilities, as demand from internet mail-orders and apparel industry, which are the driving force of demand, as well as demand from the accompanying third-party logistics (Note) continues to be brisk, demand and supply in the market continues to be tight, also with the addition in recent years of demand accompanying the sophistication of logistics of the food wholesale industry. New demand of a large scale is expected for 2016 onward and there is a possibility that the vacancy rate will rise temporarily but it is forecast that demand for highly functional logistics facilities will be steady and that vacant spaces will gradually be eliminated.

(Note) Third-party logistics (3PL) refers to logistics services outsourced by shippers for part or all of their logistics functions.

Concerning the environment surrounding retail facilities, individual consumption is currently weak such as due to the effects of households being oriented towards thriftiness. The consumer sentiment index (the Cabinet Office’s “Consumer Confidence Survey”) indicates an ongoing gradual recovery from expectations of improving income. An increase of retail sales is expected going forward as the upward trend of real wages solidifies. Moreover, rental demand in major urban zones is strong. This is because the population is flowing into these areas backed by economic expansion and there are strong needs for retailers starting new shops. Stable demand is expected to continue such as with the support of growing inbound demand.

With regard to the office leasing market, while newly supplied properties continue to look for tenants, demand and supply is tightening due to companies seeking to improve locations and specifications or increase floor space, with the backdrop of increasing corporate earnings. While the rent level continues to be increasing at a slow pace due to the impact of the current economic standstill, this gradual recovery is expected to continue going forward supported by demand from companies to increase their spaces.

Concerning the environment surrounding the rental apartment market, the stock and new supply of high-quality rental condominiums in good locations is at a low level while excessive inflow of population into major urban areas continues and so supply is expected to be limited going forward as well due to the rise of land prices, increase of construction costs and intensification of competition with for-sale

condominiums and other sectors for acquiring lots. Reflecting such supply/demand conditions, rental condominiums owned by J-REITs continue to have a high occupancy rate of more than 95% overall.

New rents are forecast to follow a gentle upward trajectory for the time being backed by tight supply and demand and an improving income environment.

In the real estate transaction market, there is a sense of overheating in the competition to acquire properties. While the same situation for supply and demand is expected to continue under an accommodative financial environment, if uncertainties of domestic and foreign financial markets and trends of risk avoidance which are currently ongoing become extended, this could lead to lower investor sentiment through changes in the funding environment and so such trends must be watched closely.

Under such circumstances, NMF acquired four properties (NRE Kichijoji Building, GEMS Ichigaya, PROUD FLAT Hatchobori and PROUD FLAT Itabashi Honcho) for ¥9,030 million on October 30, 2015.

As a result, the number of properties held by NMF (excluding an equity interest in a silent partnership) at the end of the fiscal period under review was 261 properties (total acquisition price of ¥792,658 million yen), investment ratio in the Greater Tokyo area accounted for 80.0% and gross leasable area was 1,658,140.97m². In addition, the occupancy rate of the entire portfolio at the end of the fiscal period under review was stable at a high level of 98.9%.

In addition, subsequent to the end of the first fiscal period (end of February 2016), NMF acquired three properties (PMO Tamachi, PMO Ginza Hatchome and PMO Shibakoen) for ¥14,080 million on March 1, 2016, acquired PRIME URBAN Chikusa (¥1,110 million) on April 5, 2016 and is scheduled to acquire PRIME URBAN Meguro Mita (Note1) (¥1,058 million) on April 25, 2016 and Hirakata Kuzuha Logistics Center (Note2) (¥3,460 million) on April 27, 2016. On the other hand, eight properties whose competitiveness decreased due to aging, etc. or whose maintenance costs are expected to increase were sold for ¥5,350 million (total sale price) to increase the quality of the portfolio.

(Note1) Although the current property name is "Sunny Hill Meguro Mita," the Fund plans to change the name to "PRIME URBAN Meguro Mita" at the earliest opportunity, after the acquisition.

(Note2) Although the current property name is "Hirakata Logistics Center," the Fund plans to change the name to "Hirakata Kuzuha Logistics Center" at the earliest opportunity, after the acquisition.

B. Status of Fund Procurement

During the fiscal period under review, NMF refinanced ¥25.2 billion of maturing interest-bearing liabilities (of which ¥15.0 billion are investment corporation bonds) and procured ¥9.3 billion of funds for the acquisition of new properties. As a result, the balance of interest-bearing liabilities was ¥403,164 million and the ratio of interest-bearing liabilities to total assets (LTV) was 43.4% at the end of the fiscal period under review.

The following is the rating obtained by NMF as at the end of the fiscal period under review. The rating is not a rating of NMF investment units. Concerning NMF investment units, there are no credit ratings that credit rating agencies have provided or made available for inspection and there are no credit ratings that credit rating agencies are scheduled to provide or make available for inspection at the request of NMF.

Credit rating agency	Rating description	Note
Japan Credit Rating Agency, Ltd. (JCR)	Long-term issuer rating: AA	Rating outlook: Stable
Rating and Investment Information, Inc. (R&I)	Rating: A+	Rating outlook: Stable
Standard & Poor's Financial Services LLC, (S&P)	long-term corporate credit ratings	A
	short-term corporate credit ratings	A-1

C. Business Performance and Distributions

As a result of the management described above, business performance for the 1st period was as follows: operating revenue of ¥24,313 million, operating income of ¥6,483 million, ordinary income of ¥4,050 million and net income of ¥4,048 million.

Concerning distributions for the 1st period, the Fund decided the distribution for each 1 unit will be ¥2,219.

Within the distribution mentioned above, in order to have the maximum amount of distributions of earnings included in deductible expenses by applying special measures for the tax treatment (Article 67-15, Paragraph 1 of the Act on Special Measures Concerning Taxation (Act No. 26 of 1957)), NMF decided to distribute almost the entire amount of income as stipulated in Article 136 Paragraph 1 of the Investment Trust Act, excluding fractions of the earnings distribution per investment unit that are less than 1 yen. Accordingly, NMF declared earnings distribution per investment unit (excluding distributions in excess of earnings) of 317 yen.

In addition to this, in accordance with the distribution policy stipulated in the Articles of Incorporation and in consideration of the impact that costs related to the merger such as amortization costs of goodwill and net assets deductions (that which is described in Article 2 Paragraph 2 (30) (b) of the Calculation Rules for Investment Corporations; together with costs related to the merger such as amortization costs of goodwill to be referred hereafter as “merger-related costs, etc.”) will have on distributions, NMF will distribute the distribution in excess of earnings that it decides with the amount equivalent to the merger-related costs (hereinafter “distribution in excess of earnings”). When implementing distribution in excess of earnings, if each period’s distribution of reserve for temporary difference adjustments (that which is stipulated in Article 2 Paragraph 2 (30) (b) of the Calculation Rules for Investment Corporations) is less than the amount of merger-related costs, etc., other distribution in excess of net income will also be implemented.

For the fiscal period under review NMF decided to implement ¥7,079 million of distributions in excess of earnings which is the sum of ¥1,622 million of amortization expenses for goodwill, ¥2,590 million of fees paid to the Asset Management Company for the merger and ¥2,867 million of loss on deferred hedge as well as implement ¥6,137 million of distribution of reserve for temporary difference adjustments and so per unit distribution of reserve for temporary difference adjustments was ¥1,649. In addition, NMF decided to implement ¥941 million of other distribution in excess of net income and so per unit distribution of other distribution in excess of net income was ¥253.

② Outlook for Next Fiscal Period

A. Future Management Policy

Following its establishment, NMF formulated and announced its mid- to long-term management strategy in November 2015.

The mid- to long-term management strategy separates the 10 years following NMF's establishment into three phases (the quality phase, growth phase and master phase) and aims for stable management in the mid to long term through the steady growth of the asset size and establishment of the fund brand. In the quality phase, which is the first phase (up to three to five years after the establishment), NMF will utilize the benefits of being one of Japan's largest diversified REITs to promote internal growth centering on strategic property replacements (SPRs) and upside sectors (Note) and aim to increase the asset size.

As its first round of SPRs NMF decided to acquire three properties and sell eight properties on March 29, 2016.

(Note) Upside sectors refer to sectors for which an increase of rental revenue can be expected, particularly offices as well as retail facilities in station areas.

③ Significant Subsequent Events

A. Transfer of the Asset

The fund concluded the sales and purchase agreement with same Tokutei Mokuteki Kaisha on March 30, 2016, after the end of 1st fiscal year end (February 29, 2016) regarding the assets stated below, and concluded the transfer of the assets on April 12, 2016.

Impact on Earning is scheduled to record of transfer profit as Operating Revenues on the 2nd fiscal period (from March 1, 2016 to August 31, 2016).

Property name	Type of Asset	Use	Transfer Price (million yen)	2nd fiscal period Impact on Earnings (million yen)
Central Shintomicho Building	Trust beneficiary interest in mainly real estate	Office	(Note 1)	—
Toho Edogawabashi Building	Real Estate	Office		
Toshin Meguro Building	Trust beneficiary interest in mainly real estate	Office		
PRIME URBAN Ochiai	Real Estate	Residential		
PRIME URBAN Nakano	Real Estate	Residential		
PRIME URBAN Ekoda	Real Estate	Residential		
PRIME URBAN Urayasu II	Real Estate	Residential		
PRIME URBAN Yamahana	Real Estate	Residential		
Total				

(Note 1) The purchase price of each property is not disclosed as the assignee's consent to the disclosure thereof has not been obtained.

(Note 2) Regarding Toho Edogawabashi Building, PRIME URBAN Nakano and PRIME URBAN Urayasu II, loss on sale of real estate, etc. is recorded as impairment loss in the first fiscal period. For details please refer to "(Notes to Statement of Income and Retained Earnings) *2 Impairment loss" below.

Assumptions Underlying Earnings Forecasts for the Fiscal Period Ending August 31, 2016 (2nd Period)

Item	Assumptions
Calculation period	<ul style="list-style-type: none"> • 2nd Fiscal Period: March 1, 2016 to August 31, 2016
Assets Under Management	<ul style="list-style-type: none"> • It is assumed that NMF will acquire two properties, namely PRIME URBAN Meguro Mita on April 25, 2016, and Hirakata Kuzuha Logistics Center on April 27, 2016 (hereinafter the “Assets Scheduled for Acquisition”) in addition to the real estate, etc. (257 properties) owned as of the day of this document (hereinafter the “Acquired Portfolio”). Furthermore, from this acquisition, “Godo Kaisha Osaka Hirakata Project silent equity partnership” is assumed to dissolve and NMF will receive settlement amount pro-rata to the equity interest amount. • In forecasting the financial results it is assumed that NMF will have acquired the Assets Scheduled for Acquisition on the above scheduled acquisition dates and that there will be no change in assets under management (new property acquisitions or sales of portfolio properties) until August 31, 2016. • In practice, the investment portfolio is subject to change.
Operating revenues	<ul style="list-style-type: none"> • Leasing income is estimated based on the business condition of the Acquired Portfolio, information provided by the current owners of the Assets Scheduled for Acquisition, the tenant trends, competing building in the neighborhood, and the real estate market conditions, etc., and assuming that there are no arrears and nonpayment cases.
Operating expenses (excluding amortization expenses for goodwill)	<ul style="list-style-type: none"> • In respect of leasing expenses, which constitute a principal component of operating expenses, expenses other than depreciation are calculated based on the historical data reflecting factors that may cause expenses to fluctuate, based on the information provided by the current owners of each Asset Scheduled for Acquisition. • In general, the fixed asset taxes and city planning taxes imposed on the properties in the tax year (including the date) are distributed between the seller and the purchaser on a daily pro-rata basis and settled at the time of acquisition, and such taxes are deemed as the acquisition costs rather than expenses. • The tax amount is estimated to be ¥2,328 million for the 2nd fiscal period (ending August 31, 2016). These amounts are included in the leasing expenses. • Outsourcing expenses are estimated to be ¥2,943 million for the 2nd fiscal period (ending August 31, 2016). • As for the repair and maintenance, the Asset Management Company (Nomura Real Estate Management Co., Ltd.) estimates the required amounts for the respective properties for each of the fiscal periods based on the medium- and long-term repair plans. However, it is possible that the actual repair expenses for the fiscal periods may differ significantly than the estimates since (i) an unforeseeable event might cause serious damage to a building requiring emergency repair expenditure, (ii) amounts might vary year by year, and (iii) certain types of repair expenses are not required every year. • Depreciation and amortization are estimated to be ¥4,237 million for the 2nd fiscal period (ending August 31, 2016). • Leasing expenses are estimated to be ¥14,166 million for the 2nd fiscal period (ending August 31, 2016). • The amount to be recorded as the merger related expenses is estimated to be ¥2,597 million for the 1st fiscal period (ended February 29, 2016). • The operating expenses other than the rental expenses (including asset management fees, asset custody fees and general administration fees) are estimated at ¥3,232 million for the 2nd fiscal period (ending August 31, 2016).

Item	Assumptions
Amortization expenses for goodwill	<ul style="list-style-type: none"> • Goodwill is expected to accrue upon the merger and will be accounted as assets and amortized using the straight-line method over 20 years on a regular basis pursuant to the Accounting Standards for Business Combinations (Statement No. 21, as amended on September 13, 2013). The amount of goodwill is ¥77,875 million. The goodwill amortization is estimated to be ¥1,946 million for the 2nd fiscal period (ending August 31, 2016). • The goodwill amortization is the item that will cause the difference between accounting and tax treatment and may result in the imposition of corporation tax or other tax. Following the tax reform in tax year 2015, NMF intends to make cash distributions in excess of its profits for the purpose of tax relief during the goodwill amortization period, and it is expected that NMF will be able to avoid such taxation.
Non-operating expenses	<ul style="list-style-type: none"> • Interest payable and other borrowing related expenses are estimated at ¥2,377 million for the 2nd fiscal period (ending August 31, 2016).
Interest-bearing liabilities	<ul style="list-style-type: none"> • As of the date of this document NMF has interest-bearing liabilities of ¥417,864 million, of which ¥385,364 million is the balance of borrowings and ¥32,500 million is the balance of investment corporation bonds issued. • Concerning the borrowing of ¥30,422 million, which will be due by the last business day of the 2nd fiscal period (ending August 31, 2016), the Fund assumes that the entire amount be refinanced excluding the scheduled repayment of ¥92 million using cash on hand. No investment corporation bonds will reach maturity by the end of the same fiscal period. • The Fund assumes that there will be no changes in the amount of the outstanding borrowings and investment corporation bonds (including the short term investment corporation bonds) other than the change in the amount stated above.
Investment units	<ul style="list-style-type: none"> • The Fund assumes that there will be no changes in the number of investment units issued and outstanding as of the date of this report of 3,722,010 units and there will be no additional issues of new investment units by the end of the 2nd fiscal period (ending August 31, 2016).
Distribution per unit	<ul style="list-style-type: none"> • Distribution per unit is calculated according to the Fund's distribution policy outlined in its Articles of Incorporation. • Distribution per unit may vary due to various factors, including changes in the investment portfolio, changes in rent income caused by tenant replacements, and unforeseen repairs.
Distribution per unit in excess of earnings per unit	<ul style="list-style-type: none"> • The amount of distribution in excess of net income is estimated on the assumption that, for the purpose of tax relief, the Corporation will distribute the amount equivalent to the total amount of the goodwill amortization, etc. that will cause the difference between accounting and tax treatment, and may result in the imposition of corporation tax or other tax. In order to alleviate the impact of the goodwill amortization and other merger related expenses (the "Merger Expenses, etc.") on cash distribution, the above estimate is based on the assumption that, if the total amount of the difference between accounting and tax treatment for each fiscal period is less than the Merger Expenses, etc., the Corporation will make distribution in excess of net income by adding such amount up to the amount of Merger Expenses, within the limit as prescribed by the regulations of the Investment Trusts Association, Japan (meaning the entire amount equivalent to the increase in the reserve for temporary difference adjustments plus the amount equivalent to 60/100 of the difference between the cumulative amount of depreciation and amortization recorded as of the end of the relevant calculation period and that of the end of the prior calculation period with respect to the other distribution in excess of net income (ordinary distribution in excess of net income)). • For the 2nd fiscal period, all amount of distribution in excess of earnings (¥523) is expected as other distribution in excess of net income.

Item	Assumptions
Other	<ul style="list-style-type: none">• It is assumed that there will be no amendments in legislation, taxation, accounting principles, listing requirements and the Investment Trusts Association, Japan regulations, which affect the above forecasts.• It is assumed that there will be no material changes in general economic conditions and real estate markets.

(4) Statement of Cash Distributions

	Current period from Oct. 1, 2015 to Feb. 29, 2016
I. Retained earnings at end of period	4,048,907,447 yen
II. Distributions in excess of retained earnings	7,079,263,020 yen
Of which, allowance for adjustment of temporary differences	6,137,594,490 yen
Of which, other distributions in excess of net earnings	941,668,530 yen
III. Distributions	8,259,140,190yen
[Distributions per unit]	(2,219yen)
Of which, distributions of earnings	1,179,877,170yen
[Of which, other distributions in excess of net earnings per unit]	(317yen)
Of which, allowance for adjustment of temporary differences	6,137,594,490yen
[Of which, distributions in excess of retained earnings per unit [allowance for adjustment of temporary differences]]	(1,649yen)
Of which, other distributions in excess of net earnings	941,668,530yen
[Of which, distributions in excess of retained earnings per unit [other distributions in excess of net earnings]]	(253yen)
IV. Retained earnings carried forward	2,869,030,277yen

Calculating method for distribution amount	<p>Concerning distributions for the 1st period, the Fund decided the distribution for each 1 unit will be ¥2,219.</p> <p>Within the distribution mentioned above, in order to have the maximum amount of distributions of earnings included in deductible expenses by applying special measures for the tax treatment (Article 67-15, Paragraph 1 of the Act on Special Measures Concerning Taxation (Act No. 26 of 1957)), NMF decided to distribute almost the entire amount of income as stipulated in Article 136 Paragraph 1 of the Investment Trust Act, excluding fractions of the earnings distribution per investment unit that are less than 1 yen. Accordingly, NMF declared earnings distribution per investment unit (excluding distributions in excess of earnings) of 317 yen.</p> <p>In addition to this, in accordance with the distribution policy stipulated in the Articles of Incorporation and in consideration of the impact that costs related to the merger such as amortization costs of goodwill and net assets deductions (that which is described in Article 2 Paragraph 2 (30) (b) of the Calculation Rules for Investment Corporations; together with costs related to the merger such as amortization costs of goodwill to be referred hereafter as “merger-related costs, etc.”) will have on distributions, NMF will distribute the distribution in excess of earnings that it decides with the amount equivalent to the merger-related costs (hereinafter “distribution in excess of earnings”). When implementing distribution in excess of earnings, if each period’s distribution of reserve for temporary difference adjustments (that which is stipulated in Article 2 Paragraph 2 (30) (b) of the Calculation Rules for Investment Corporations) is less than the amount of merger-related costs, etc., other distribution in excess of net income will also be implemented.</p> <p>For the fiscal period under review NMF decided to implement ¥7,079 million of distributions in excess of earnings which is the sum of ¥1,622 million of amortization expenses for goodwill, ¥2,590 million of fees paid to the Asset Management Company for the merger and ¥2,867 million of loss on deferred hedge as well as implement ¥6,137 million of distribution of reserve for temporary difference adjustments and so per unit distribution of reserve for temporary difference adjustments was ¥1,649. In addition, NMF decided to implement ¥941 million of other distribution in excess of net income and so per unit distribution of other distribution in excess of net income was ¥253.</p>

(5) Statement of Cash Flows

	Thousands of Yen
	Current period from Oct. 1, 2015 to Feb. 29, 2016
Cash flows from operating activities	
Income before income taxes	4,050,336
Depreciation	3,472,856
Impairment loss	79,019
Amortization of goodwill	1,622,397
Amortization of investment corporation bond issuance costs	1,143
Interest income	(6,064)
Interest expenses	1,702,780
Loss on disposal of property and equipment	6,881
Increase (decrease) in allowance for doubtful accounts	54
Decrease (increase) in rental receivables	138,204
Decrease (increase) in prepaid expenses	(29,734)
Decrease (increase) in long-term prepaid expenses	(218,802)
Decrease (increase) in long-term deposits	(180)
Increase (decrease) in trade accounts payable	606,536
Increase (decrease) in other accounts payable	(8,392)
Increase (decrease) in accrued consumption taxes	(347,569)
Increase (decrease) in accrued expenses	(524,025)
Increase (decrease) in rent received in advance	86,851
Other	159,517
Subtotal	10,791,813
Interest received	6,064
Interest paid	(2,077,288)
Income taxes paid	5,250
Net cash provided by (used in) operating activities	8,725,840
Cash flows from investing activities	
Payments for purchase of property and equipment	(4,482,327)
Payments for purchase of property and equipment in trust	(6,696,288)
Payments for purchase of intangible assets	(4,640)
Payments for purchase of intangible assets in trust	(7,241)
Proceeds from withdrawal of investment securities	8,754
Reimbursement of security deposits to tenants	(993,243)
Proceeds from security deposits from tenants	401,938

Cash flows from financing activities	
Proceeds from short-term debt	5,000,000
Proceeds from long-term debt	29,500,000
Repayment of long-term debt	(11,082,800)
Repayment of investment corporation bonds	(15,000,000)
Distributions to unitholders	(8,886,988)
Net cash provided by (used in) financing activities	(469,788)
Net increase (decrease) in cash and cash equivalents	(3,244,885)
Cash and cash equivalents at beginning of period	—
Cash and cash equivalents from merger	61,570,046
Cash and cash equivalents at end of period	*1 58,325,160

(6) Notes Concerning the Going Concern Assumption
 Not applicable.

(7) Notes Concerning Significant Accounting Policies

1. Investment securities	Non-marketable securities classified as other securities are carried at cost. Cost of securities sold is determined by the moving average method. For equity interests in a silent partnership, NMF adopts the method of factoring in the net amount of silent partnership income (loss) in proportion to its equity interests.								
2. Depreciation of noncurrent assets	<p>① Property and equipment (including trust assets) The straight-line method is adopted. The useful lives of major property and equipment are as follows:</p> <table border="0" data-bbox="560 488 1027 607"> <tr> <td>Buildings</td> <td>3~70 years</td> </tr> <tr> <td>Structures</td> <td>2~45 years</td> </tr> <tr> <td>Machinery</td> <td>2~10 years</td> </tr> <tr> <td>Tools, furniture and fixtures</td> <td>2~15 years</td> </tr> </table> <p>② Intangible assets The straight-line method is adopted. Goodwill is amortized using straight-line method over 20 years.</p> <p>③ Long-term prepaid expenses The straight-line method is adopted.</p>	Buildings	3~70 years	Structures	2~45 years	Machinery	2~10 years	Tools, furniture and fixtures	2~15 years
Buildings	3~70 years								
Structures	2~45 years								
Machinery	2~10 years								
Tools, furniture and fixtures	2~15 years								
3. Deferred investment corporation bond issuance costs	Deferred investment corporation bond issuance costs are amortized by the straight-line method over the respective terms of the bonds.								
4. Allowance for doubtful accounts	For allowance for doubtful accounts against possible losses arising from default on receivables, uncollectable amount is estimated and recorded by investigating collectability based on historical loan loss ratios for general receivables and on a case-by-case examination for doubtful and other specific receivables.								
5. Revenue and expenses recognition	<p>Accounting for fixed asset tax, etc. Of the tax amount assessed and determined for fixed asset tax, city planning tax, depreciable asset tax, etc. on real estate, etc. held, the method of charging the amount corresponding to the concerned fiscal period to expenses as expenses related to rent business is adopted. The amount equivalent to fixed asset tax, etc. for the fiscal year including the acquisition date paid to the seller as reimbursement upon acquisition of real estate or trust beneficiary interests in real estate is included in the cost of acquisition of the concerned real estate and not recorded as expenses. The amount equivalent to fixed asset tax, etc. included in the cost of acquisition of real estate, etc. in the fiscal period is 5,370 thousand yen.</p>								
6. Hedge accounting	<p>① Method of hedge accounting Deffered hedge accounting is adopted. For interest-rate swap transactions meet the requirements for special treatment, special treatment is adopted.</p> <p>② Hedging instruments and hedged items Hedging instruments Interest-rate swap transactions Hedged items Interest on loans</p> <p>③ Hedging policy NMF conducts derivative transactions for the purpose of hedging risks prescribed in the Articles of Incorporation in accordance with the Basic Policy on Risk Management.</p> <p>④ Method for assessing effectiveness of hedging The effectiveness of hedging is assessed by the correlation between changes in the fair value of hedging instruments and hedged items.</p>								
7. Cash and cash equivalents as stated in the Statement of Cash Flows	Cash and cash equivalents in the statement of cash flows consist of cash on hand and cash in trust; deposits and deposits in trust that can be withdrawn at any time; and short-term investments with a maturity of 3 months or less from the date of acquisition, which are readily convertible to cash and bear only an insignificant risk of price fluctuation.								

(8) Notes to Financial Statements

(Notes to Balance Sheet)

*1. Commitment line agreement

① NMF is concluding a commitment line agreement with 3 lending financial institutions.

	Current period (Feb. 29, 2016)
Committed line of credit	10,000,000 thousand yen
Balance of used line	5,000,000 thousand yen
Balance of unused line	5,000,000 thousand yen

② NMF is concluding a commitment line agreement with 5 lending financial institutions.

	Current period (Feb. 29, 2016)
Committed line of credit	30,000,000 thousand yen
Balance of used line	- thousand yen
Balance of unused line	30,000,000 thousand yen

*2. Minimum net assets as provided in Article 67, Paragraph 4 of the Act on Investment Trusts and Investment Corporations

	Current period (Feb. 29, 2016)
	50,000 thousand yen

(Notes to Statement of Income and Retained Earnings)

*1. Breakdown of real estate rental revenues and expenses

(Unit: thousand yen)

	Current period from Oct. 1, 2015 to Feb. 29, 2016	
A. Property related revenues		
Rental revenues		
Rent revenues	20,176,656	
Common area charges	2,109,778	22,286,435
Other rental revenues		
Parking revenues	450,566	
Incidental income	1,529,932	
Other miscellaneous revenues	45,678	2,026,176
Property related revenues		24,312,611
B. Property related expenses		
Real estate rental expenses		
Property management costs	1,378,031	
Property management fees	654,354	
Property and other taxes	2,114,885	
Utility expenses	1,389,965	
Casualty insurance	30,984	
Repairs and maintenance	1,555,616	
Land rents	162,378	
Depreciation	3,471,461	
Other rental expenses	789,029	11,546,708
Property related expenses		11,546,708
C. Real estate rental profits [A – B]		12,765,903

*2. Impairment loss

NMF recorded impairment loss during the fiscal period under review for the following asset groups.

Property name	Use	Type	Location	Impairment loss (thousand yen)
Toho Edogawabashi Building	Office	Land, building, etc.	Bunkyo Ward, Tokyo	50,924
PRIME URBAN Nakano	Residential	Land, building, etc.	Nakano Ward, Tokyo	20,958
PRIME URBAN Urayasu II	Residential	Land, building, etc.	Urayasu City, Chiba	7,136

Each property is considered as an asset group for calculating impairment loss. In the fiscal period under review, as sale agreements were concluded on March 20, 2016 for the above three fixed asset groups, the book values were decreased to the recoverable values and the amount of decrease was recorded as impairment loss to the classification of operating expenses.

Impairment loss caused by sales are regarded as having the properties of operating expenses and are therefore recorded to the classification of operating expenses in accordance with Article 48 Paragraph 2 of the Calculation Rules for Investment Corporations.

Also, the recoverable values of the asset groups are measured using the net realizable values. The net realizable values are calculated by subtracting the expected disposal costs from the actual sale prices.

*3 Net amount in which the total amount of accepted retained earnings through the merger of ¥913,191 thousand and the amount of dividend surplus (cash distribution on merger) of ¥912,562 thousand are offset is indicated.

(Notes to Statement of Changes in Net Assets)

	Current period from Oct. 1, 2015 to Feb. 29, 2016
*1.Total number of investment units authorized and total number of investment units issued and outstanding	
Total number of investment units authorized	20,000,000 units
Total number of investment units issued and outstanding	3,722,010 units

(Notes to Statement of Cash Flows)

*1. Reconciliation of cash and cash equivalents at end of period to balance sheet accounts

(Unit: thousand yen)

	Current period from Oct. 1, 2015 to Feb. 29, 2016
Cash and bank deposits	47,139,232
Cash and bank deposits in trust	11,185,928
Cash and cash equivalents	58,325,160

*2. Important contents of the non-cash transactions

(Unit: thousand yen)

	Current period from Oct. 1, 2015 to Feb. 29, 2016
NMF was established through the consolidation type merger of the former NMF with the consolidated investment corporations, namely NOF and NRF. The main breakdown of the assets and liabilities inherited from these three investment corporations is as follows. The increase of unitholders' equity and seed surplus are ¥161,120,405 thousand and ¥315,299,775 thousand respectively.	
Current assets	63,281,117
Noncurrent assets	783,332,891
Deferred assets	24,926
Total assets	846,638,935
Current liabilities	62,222,670
Long-term liabilities	384,957,993
Total liabilities	447,180,664

(Notes on Lease Transactions)

Operating lease transactions (as lessor)

Future lease payments receivable

(Unit: thousand yen)

	Current period (Feb. 29, 2016)
Due within 1 year	23,715,979
Due after 1 year	58,287,999
Total	82,003,978

(Notes on Financial Instruments)

1. Matters concerning status of financial instruments

(1) Policy for handling financial instruments

NMF procures funds through debt financing, issuance of investment corporation bonds, issuance of investment units, etc. upon acquisition of real estate related assets. In procuring funds through interest-bearing liabilities, NMF adopts the basic financial policy of procuring funds with due consideration for extending the loan period, converting

the interest rate to a fixed rate and laddering the repayment dates, etc. for interest-bearing liabilities.

NMF enters into derivative transactions for the purpose of hedging risks of future interest rates rising and adopts the policy of not engaging in speculative transactions.

(2) Description of financial instruments and associated risks, and risk management structure

Funds from debts and investment corporation bonds are primarily used to fund the acquisition of real estate related assets and to fund the repayment of debts and redemption of investment corporation bonds. These are exposed to liquidity risks of failure to procure alternative funds at the time of repayment or redemption. NMF controls and limits the concerned risks by diversifying the lending financial institutions, as well as considering and implementing effective use of surplus funds, procurement of funds from the capital market through issuance of investment units, etc. and other various procurement of funds. In addition, floating interest rates debts are exposed to risks of the interest rate payable rising. NMF limits the impact that the interest rate payable rising has on NMF's operations by keeping LTV (ratio of interest-bearing liabilities to total assets) at a low level and keeping the ratio of borrowings that are long-term and fixed-rate borrowings at a high level. Furthermore, derivative transactions (interest-rate swap transactions, etc.) are available as a hedging instrument for hedging risks of floating interest rates rising and converting the interest expenses to a fixed payment.

Deposits are those for investing NMF's surplus funds and are exposed to risks of failure of the financial institutions that are holding the deposits and other credit risks, but NMF limits the risks by diversifying the financial institutions that are holding the deposits.

(3) Supplementary explanation on matters concerning fair value, etc. of financial instruments

The fair value of financial instruments, aside from values based on market price, includes values based on reasonable calculation when there is no market price. Certain assumptions are adopted in the calculation of the concerned values. Accordingly, there may be cases where the concerned values will vary when different assumptions are adopted. In addition, concerning the contract amount, etc. of derivative transactions presented in "Notes on Derivative Transactions" later in this report, the amount itself does not represent the market risk involved in these derivative transactions.

2. Matters concerning fair value, etc. of financial instruments

The following are the carrying amount and fair value as of February 29, 2016, and the difference between these amounts.

(Unit: thousand yen)

	Carrying amount (Note 1)	Fair value (Note 1)	Amount of difference
(1) Cash and bank deposits	47,139,232	47,139,232	—
(2) Cash and bank deposits in trust	11,185,928	11,185,928	—
(3) Short-term debt	(9,100,000)	(9,100,000)	—
(4) Current portion of investment corporation bonds	(5,000,000)	(5,046,550)	46,550
(5) Current portion of long-term debt	(50,015,600)	(50,192,167)	176,567
(6) Investment corporation bonds	(27,500,000)	(29,536,482)	2,036,482
(7) Long-term debt	(311,549,000)	(318,556,852)	7,007,852
(8) Derivative transactions	(2,882,186)	(2,882,186)	—

(Note 1) Items that are charged to liabilities are shown in brackets [].

(Note 2) Matters concerning method for calculating fair value of financial instruments and derivative transactions

(1) Cash and bank deposits; (2) Cash and bank deposits in trust, (3) Short-term debt

As these are settled within a short period of time, the fair value is approximately the same as the book value and is thus stated at that book value.

(4) Current portion of investment corporation bonds; (6) Investment corporation bonds

The fair value of investment corporation bonds issued by the Company is determined based on their market prices

(5) Current portion of long-term debt; (7) Long-term debt

As long-term debt with floating interest rates reflect market interest rates within a short period of time, the fair value is thought to be approximately the same as the book value and is thus stated at that book value (However, the fair value of long-term debt with floating interest rates that are subject to special treatment for interest-rate swaps (please refer to “Notes on Derivative Transactions” later in this report) is based on the method of calculating by discounting the sum total amount of principal and interest accounted for as one transaction together with the concerned interest-rate swap by the interest rate that is reasonably estimated as being applicable in the event of drawdown of a similar debt financing.). In addition, the fair value of long-term debt with fixed interest rates is calculated based on the method of calculating by discounting the sum total amount of principal and interest by the interest rate that is reasonably estimated as being applicable in the event of drawdown of a similar debt financing.

(8) Derivative transactions

Please refer to “Notes on Derivative Transactions” later in this report.

(Note 3) Financial instruments for which fair value is deemed extremely difficult to determine

(Unit: thousand yen)

Type of asset	Carrying amount
	Current period (Feb. 29, 2016)
Investment securities	91,430

*Investment securities (ownership interests in a silent partnership) do not have a readily available market price and reasonable estimates of cash flows from the underlying properties cannot be made, so the fair value is deemed extremely difficult to determine. Accordingly, they are excluded from fair value disclosures.

(Note 4) Amount of redemption of monetary claims scheduled to be due after the date of settlement of accounts (February 29, 2016)

(Unit: thousand yen)

	Due within 1 year	Due after 1 year, within 2 years	Due after 2 years, within 3 years	Due after 3 years, within 4 years	Due after 4 years, within 5 years	Due after 5 years
Cash and bank deposits	47,139,232	—	—	—	—	—
Cash and bank deposits in trust	11,185,928	—	—	—	—	—
Total	58,325,160	—	—	—	—	—

(Note 5) Amount of repayment of investment corporation bond, long-term debt and other interest-bearing liabilities scheduled to be due after the date of settlement of accounts (February 29, 2016)

(Unit: thousand yen)

	Due within 1 year	Due after 1 year, within 2 years	Due after 2 years, within 3 years	Due after 3 years, within 4 years	Due after 4 years, within 5 years	Due after 5 years
Short-term debt	9,100,000	—	—	—	—	—
Investment corporation bonds	5,000,000	9,000,000	—	—	5,000,000	13,500,000
Long-term debt	50,015,600	53,475,600	43,685,600	49,185,600	49,455,600	115,746,600
Total	64,115,600	62,475,600	43,685,600	49,185,600	54,455,600	129,246,600

(Notes on securities)

Current period (As of February 29, 2016)

Not applicable.

(Notes on Derivative Transactions)

1. Transactions not subject to hedge accounting

Current period (As of February 29, 2016)

Not applicable.

2. Transactions subject to hedge accounting

Current period (As of February 29, 2016)

The following is the contract amount or the amount equivalent to the principal provided in the contract, etc. as of the date of settlement of accounts for each method of hedge accounting.

(Unit: thousand yen)

Method of hedge accounting	Type of derivative transaction	Main hedged item	Contract amount (Note 1)		Fair value (Note 2)
				Due after 1 year	
Principal treatment method	Interest-rate swap transaction Floating receivable	Long-term debt	149,700,000	130,457,200	(Note 3) (2,882,186)
	Fixed payable				
Special treatment for interest-rate swaps	Interest-rate swap transaction Floating receivable	Long-term debt	103,382,300	90,339,500	(Note 4) (2,492,211)
	Fixed payable				
Total			253,082,300	220,796,700	(5,374,397)

* Since derivative transactions qualifying for special treatment for interest-rate swaps are accounted for as one transaction together with their hedged item, long-term debt, the fair value of these is included in the fair value of “(5) Current portion of long-term debt” and “(7) Long-term debt” in “Notes on Financial Instruments; 2. Matters concerning fair value, etc. of financial instruments” earlier in this report.

(Note 1) Contract amount is based on notional amount.

(Note 2) Fair value is calculated by swap counterparty, based on the actual market interest rate, etc.

(Note 3) Out of the fair value, (¥14,591 thousand) is booked as “accrued expences” on the Balance Sheet.

(Note 4) Out of the fair value, (¥2,492,211 thousand) is not marked to market on the Balance Sheet, since adopting Special treatment for interest-rate swaps.

(Notes on retirement benefit plans)

Current period (As of February 29, 2016)

Not applicable.

(Notes on Business Combination)

Current period (As of February 29, 2016)

Business Combination through Acquisition

1. Overview of Business Combination

(1) Name and Line of Business of Aquirees

Name of acquiree	Line of Business
Nomura Real Estate Office Fund, Inc. (“NOF”)	Real estate investment trust
Nomura Real Estate Residential Fund, Inc. (“NRF”)	Real estate investment trust

(2) Main Reasons for Business Combination

NMF believed that the merger would expand acquisition opportunities, stabilize the portfolio, enhance risk tolerance, increase competitive strength for asset acquisitions and stabilize the financial base by increasing the asset size and diversifying target investment sectors. In addition, NMF believed that it could achieve both growth

and stable management by effectively leveraging the wide-range of know-hows and brands held by Nomura Real Estate Group, one of the major comprehensive real estate developers in Japan. As such, NMF was confident that the merger was the best option for its unitholders and has therefore entered into the merger agreement.

(3) Date of Business Combination

October 1, 2015

(4) Legal Framework of Business Combination

A consolidation type merger with the former NMF, NOF and NRF as the consolidated investment corporations.

(5) Name of the Investment Corporation after Merger

Nomura Real Estate Master Fund, Inc.

(6) Main Reasons for Decision to Acquire the Companies

- ① The former NMF's shareholder holds the most voting rights among three investment corporations.
- ② NMF's Board of Directors are constituted from former NMF's Board of Directors.

2. Performance Period of Acquirees Included in the Statement of Income and Retained Earnings

Name of acquiree	Performance period
NOF	From October 1, 2015 to February 29, 2016
NRF	From October 1, 2015 to February 29, 2016

3. Acquisition Cost of Acquirees and the Breakdown

Name of acquiree	Acquisition cost
NOF	205,604,427 thousand yen
NRF	109,695,348 thousand yen
Total	315,299,775 thousand yen

4. Exchange Ratio, Method of Calculation and Number of Investment Units Delivered as Consideration for the Acquisition

(1) Exchange Ratio of Investment Units

	NMF	Former NMF	NOF	NRF
Merger Ratio	1.00	1.00	3.60	4.45

(2) Method of Calculation

Each investment corporation appointed a financial advisor for the merger and requested each financial advisor to perform a financial analysis of the merger ratio. The former NMF appointed Nomura Securities Co., Ltd., NOF appointed Mitsubishi UFJ Morgan Stanley Securities Co., Ltd. and NRF appointed SMBC Nikko Securities Inc (hereafter referred as "FA"). The merger ratio of each were calculated based on factors such as financial status, asset status and future outlooks, and the merit of the Merger were comprehensively considered upon reference to the results of the calculations of the financial status by each FAs, leading to an agreement among the former NMF, NOF and NRF with regard to the above merger ratios.

(3) Number of Investment Units Granted

Name of acquiree	Number of investment units granted
NOF	1,341,190 unit
NRF	715,560 unit

5. Content and Amount of Main Acquisition-Related Expenses

Content	Relevant investment corporation	Amount
FA fees	Former NMF	¥600,000 thousand
Acquisition fees for merger	NMF	¥2,590,275 thousand

6. Amount and Cause of Goodwill

(1) Amount of Goodwill

77,875,100 thousand yen

(2) Cause

Goodwill was caused by the acquisition of acquirees NOF and NRF, the former for ¥205,604,427thousand (acquisition price) exceeding its market value of net assets of ¥159,932,291 thousand and the latter for ¥109,695,348 thousand (acquisition price) exceeding its market value of net assets of ¥77,492,382 thousand.

(3) Method of Goodwill Amortization and the Amortization Period

The goodwill will be amortized equally over a period of 20 years.

7. Amounts and Main Breakdown of Assets Accepted and Liabilities Taken from the Business Combination

	(Unit: thousand yen)
Current assets	39,178,399
Noncurrent assets	518,620,230
Total assets	557,798,629
Current liabilities	51,711,857
Long-term liabilities	268,662,098
Total liabilities	320,373,955

8. Estimated Impact on the Statement of Income and Retained Earnings for the Fiscal Period Under Review Assuming the Business Combination is Completed on the Start Date of the Operating Period

There is no impact since the business combination date matches the start date of the operating period

(Notes on Tax Effect Accounting)

1. Breakdown of main causes for occurrence of deferred tax assets and deferred tax liabilities

	Current period (February 29, 2016)	(Unit: thousand yen)
Deferred tax assets		
Accepted valuation difference at merger	15,343,107	
Deferred gains or losses on hedges	926,519	
Deferred interest	389,900	
Over-depreciated long-term prepaid expenses	36,451	
Denied impairment loss	25,531	
Denied amortization of leasehold right in trust	500	
Non-deductible accrued enterprise tax	97	
Excess allowance for doubtful accounts	17	
Subtotal deferred tax assets	16,722,125	
Valuation allowance	Δ16,722,125	
Total deferred tax assets	—	
Net deferred tax assets	—	

2. Breakdown of major components that caused significant differences between statutory tax rate and effective tax rate after application of tax effect accounting

	Current period (February 29, 2016)
Statutory tax rate	32.31%
(Adjustments)	
Deductible cash distributions	Δ58.38%
Valuation of allowance	13.16%
Amortization of goodwill	12.94%
Other	0.01%
Effective tax rate after application of tax effect accounting	0.05%

(Notes on equity method income and retained earnings, etc.)

Current period (from October 1, 2015 to February, 2016)

Not applicable.

(Notes on Transactions with Related Parties)

1. Parent company and major corporate unitholders

Current period (from October 1, 2015 to February, 2016)

Not applicable.

2. Subsidiaries and affiliates

Current period (from October 1, 2015 to February, 2016)

Not applicable.

3. Fellow subsidiaries

Current period (from October 1, 2015 to February, 2016)

Not applicable.

4. Directors and major individual unitholders

Current period (from October 1, 2015 to February, 2016)

Not applicable.

(Notes on asset retirement obligations)

Current period (from October 1, 2015 to February, 2016)

Not applicable.

(Notes on Investment and Rental Properties)

NMF owns leasable office, leasable retail facilities, leasable logistics facilities and leasable residential (including land) in Greater Tokyo area and other areas for the purpose of earning revenue from leasing.

The following are the carrying amount, amount of increase (decrease) during the fiscal period and fair value of these investment and rental properties at the end of the fiscal period.

(Unit: thousand yen)

	Current period from Oct. 1, 2015 to Feb. 29, 2016
Carrying amount	
Balance at beginning of period	781,610,588
Amount of increase (decrease) during period	8,696,317
Balance at end of period	790,306,905
Fair value at end of period	829,072,000

- (Note 1) Balance after the merger treatment is stated for the Balance at beginning of period.
 (Note 2) Carrying amount is the amount of cost of acquisition, less accumulated depreciation.
 (Note 3) Of the amount of increase (decrease) in investment and rental properties, the amount of increase during current period is mainly attributable to acquisition of NRE Kichijoji Building (5,347,396 thousand yen) and GEMS Ichigaya (2,112,624 thousand yen) and PROUD FLAT Hatchobori (962,150 thousand yen) and PROUD FLAT Itabashi Honcho (767,484 thousand yen) and decrease during previous period is depreciation (3,471,460 thousand yen).
 (Note4) Fair value at the end of the period is the appraisal value or investigation value found by an outside real estate appraiser.

The income (loss) in the current period for investment and rental properties is as presented in “Notes to Statement of Income and Retained Earnings” earlier in this report.

(Notes on Segment Information)

(Segment Information)

Since the Fund has been engaged in the real estate leasing business as a single segment, segment information has been omitted.

(Related Information)

Current period (from October 1, 2015 to February, 2016)

1. Information by product and service

Disclosure is omitted, since revenues from external customers of a single product/service category is more than 90% of the operating revenues on statement of income and retained earnings.

2. Information by geographical area

(1) Revenues

Disclosure is omitted, since revenues from external customers in Japan is more than 90% of the operating revenues on statement of income and retained earnings.

(2) Property and equipment

Disclosure is omitted, since the amount of property and equipment located in Japan is more than 90% of the amount of property and equipment on balance sheet.

3. Information by major customer

Customer name	Revenues (thousand yen)	Related segment name
Nomura Real Estate Partners Co., Ltd.	3,542,264	Rental real estate business

(Notes on Per Unit Information)

	Current period from Oct. 1, 2015 to Feb. 29, 2016
Net assets per unit	128,318 yen
Net income per unit	1,087 yen

(Note 1) Net income per unit is calculated by dividing net income by the average number of investment units during the period.
 In addition, the diluted net income per unit is not stated, since there are no diluted investment units.

(Note 2) The following is the basis for calculation of net income per unit.

	Current period from Oct. 1, 2015 to Feb. 29, 2016
Net income (thousand yen)	4,048,278
Amount not attributable to ordinary unitholders (thousand yen)	—
Net income attributable to ordinary investment units (thousand yen)	4,048,278
Average number of investment units during period (units)	3,722,010

(Notes on Significant Subsequent Events)

The fund concluded the sales and purchase agreement with same Tokutei Mokuteki Kaisha on March 30, 2016, after the end of 1st fiscal year end (February 29, 2016) regarding the assets stated below, and concluded the transfer of the assets on April 12, 2016.

Impact on Earning is scheduled to record of transfer profit as Operating Revenues on the 2nd fiscal period (from March 1, 2016 to August 31, 2016).

Property name	Type of Asset	Use	Transfer Price (million yen)	2nd fiscal period Impact on Earnings (million yen)
Central Shintomicho Building	Trust beneficiary interest in mainly real estate	Office	(Note 1)	—
Toho Edogawabashi Building	Real Estate	Office		
Toshin Meguro Building	Trust beneficiary interest in mainly real estate	Office		
PRIME URBAN Ochiai	Real Estate	Residential		
PRIME URBAN Nakano	Real Estate	Residential		
PRIME URBAN Ekoda	Real Estate	Residential		
PRIME URBAN Urayasu II	Real Estate	Residential		
PRIME URBAN Yamahana	Real Estate	Residential		
Total			5,350	132

(Note 1) The purchase price of each property is not disclosed as the assignee's consent to the disclosure thereof has not been obtained.

(Note 2) For Toho Edogawabashi Building, PRIME URBAN Ochiai, and PRIME URBAN Urayasu II, the amount for the loss from the transaction has been recorded as write off loss. Please refer to "3. Financial Statements / (8) Notes to Financial Statements / (Notes to Statement of Income and Retained Earnings) / *2. Impairment loss" above for the details.

(9) Increase (Decrease) in Total Number of Investment Units Issued and Outstanding

The following is the increase (decrease) in unitholders' capital and total number of investment units issued and outstanding during the period from the date of incorporation of NMF through the end of the current fiscal period (February 29, 2016).

Date	Description	Unitholders' capital (million yen)		Total number of investment units issued and outstanding (units)		Note
		Increase (Decrease)	Balance	Increase (Decrease)	Balance	
October 1, 2015	Consolidation type merger	161,120	161,120	3,722,010	3,722,010	(Note 1)

(Note 1) NMF was established through the consolidation type merger of the former NMF, NOF and NRF on October 1, 2015. Upon its establishment, NMF allotted 1 NMF unit per former NMF unit, 3.60 NMF units per NOF unit and 4.45 NMF units per NRF unit.

4. Changes in Directors

(1) Changes in NMF Directors

Timely disclosure of changes in directors will be made at the time that details are determined.
There were no changes in directors during the 1st fiscal period.

(2) Changes in Asset Management Company Directors and Audit & Supervisory

Timely disclosure of changes in directors and Audit & Supervisory will be made at the time that details are determined.

There were changes in the directors after the 1st Fiscal Period end (February 29, 2016) stated below.

Please refer to the press release dated March 4, 2016 titled "Notice Concerning Scheduled Amendments of the Articles of Incorporation, Changes in Organization, and Changes of Directors and Important Employees in the Asset Management Company" for the details.

Assume office (as of April 1, 2016)

Name	Title (New)	Title (Former)
Kenichi Okada	Director and Managing Executive Officer, Head of NMF Investment Management Group, General Manager, Asset Management Department I	Executive Officer, General Manager, NPR Investment Management Department

Resign (as of March 31, 2016)

Name	Title (New)	Title (Former)
Kenichi Shinbashi	(Resignation)	Representative Director, Executive Vice President Supervisor of the Corporate Planning Department, the Compliance Department, the Internal Audit Department, and the Accounting Department In charge of the Discretionary Investment Management Section
Motomi Uki	(Resignation)	Director and Managing Executive Officer Head of the NMF Investment Management Group General Manager of the Fund Management Department

5. Reference Information

(1) Investment Status

Type of asset	Use	Area (Note 1)	1st fiscal period As of February 29, 2016		
			Total amount held (million yen) (Note 2)	As a percentage of total amount of assets (%) (Note 3)	
Real estate	Office properties	Greater Tokyo area	82,578	8.9	
		Other areas	25,178	2.7	
		Subtotal	107,757	11.6	
	Retail properties	Greater Tokyo area	16,282	1.8	
		Subtotal	16,282	1.8	
	Residential properties	Greater Tokyo area	120,820	13.0	
		Other areas	29,302	3.2	
		Subtotal	150,122	16.2	
	Real estate in trust	Office properties	Greater Tokyo area	198,895	21.4
Other areas			50,178	5.4	
Subtotal			249,073	26.8	
Retail properties		Greater Tokyo area	80,256	8.6	
		Other areas	44,565	4.8	
		Subtotal	124,822	13.4	
Logistics properties		Greater Tokyo area	122,814	13.2	
		Other areas	6,161	0.7	
		Subtotal	128,975	13.9	
Residential properties		Greater Tokyo area	11,133	1.2	
		Other areas	2,138	0.2	
		Subtotal	13,272	1.4	
Subtotal			790,306	85.1	
Silent Partnership Equity Interest (Note 4)			91	0.0	
Deposits and other assets			137,899	14.9	
Total amount of assets			928,297	100.0	

	1st fiscal period As of February 29, 2016	
	Amount (million yen) (Note 5)	As a percentage of total amount of assets (%) (Note 3)
Total amount of liabilities	450,695	48.6
Total amount of net assets	477,601	51.4

(Note 1) "Greater Tokyo area" refers to Tokyo, Kanagawa Prefecture, Chiba Prefecture and Saitama Prefecture. "Other areas" refers to cabinet-order-designated cities, prefectural capitals, and cities with a population of 100,000 persons or more as well as surrounding areas of these cities, that are not included in the Greater Tokyo area.

(Note 2) Total amount held is the carrying amount (in the case of real estate and real estate in trust, the sum total amount of book value, after depreciation).

(Note 3) The figures are rounded off to first decimal place. Accordingly, the sum total may not add up to 100.0%.

(Note 4) Godo Kaisha Osaka Hirakata Project Silent Partnership Equity Interest.

(Note 5) Total amount of liabilities and total amount of net assets are the amounts as stated in the balance sheet as total liabilities and total net assets.

(2) Investment Assets

① Major Issue of Investment Securities

The following summarizes the investment securities held as of February 29, 2016 (end of the 1st fiscal period) by NMF.

Name	Type of asset	Units	Book value		Market value (Note 1)		Unrealized gain/loss (million yen)	Remarks
			Unit price	Total price (million yen)	Unit price	Total price (million yen)		
Godo Kaisha Osaka Hirakata Project Silent Partnership Equity Interest (Note 2)	Silent partnership equity interest	—	—	91	—	91	—	—
Total	—	—	—	91	—	91	—	—

(Note 1) Book value is noted as market value.

(Note 2) Investing in real estate in trust beneficiary interest as Hirakata Logistics Center for main trust asset.

(Note 3) NMF has exercised the preferential negotiation right granted upon the acquisition of the silent partnership equity interest, and concluded the purchase and sales agreement of trust beneficiary interest in mainly “Osaka Kuzuha Logistics Center” with Godo Kaisha Osaka Hirakata Project

② Investment Real Estate Properties

Real estate are all presented together with real estate trust beneficiary interests in “③ Other Major Investment Assets”

③ Other Major Investment Assets

The following summarizes the real estate, etc. (261 properties) held as of February 29, 2016 (end of the 1st fiscal period) by NMF (the real estate, and the beneficiary interests of trusts in which real estate properties are the principal trust properties or the real estate that are the underlying assets thereof, are hereinafter referred to as the “assets held at the end of the 1st fiscal period”). Unless otherwise stated, the figures in the tables below are the figures as of February, 2016.

A. Overview of Portfolio and Leasing Status, and Changes in Occupancy Rate, Etc.

(a) Overview of Portfolio and Leasing Status

The following is an overview of the portfolio and leasing status for the assets held at the end of the 1st fiscal period.

Number of properties		261
Acquisition price (thousand yen) (Note 1)(Note 2) (As a percentage of total acquisition price (%))	Total	792,658,000 (100.0)
	Office total	355,638,000 (44.9)
	Greater Tokyo area	280,438,000 (35.4)
	Other areas	75,200,000 (9.5)
	Retail total	140,153,000 (17.7)
	Greater Tokyo area	95,317,000 (12.0)
	Other areas	44,836,000 (5.7)
	Logistics total	132,810,000 (16.8)
	Greater Tokyo area	126,230,000 (15.9)
	Other areas	6,580,000 (0.8)
	Residential total	164,057,000 (20.7)
	Greater Tokyo area	132,367,000 (16.7)
	Other areas	31,690,000 (4.0)
Total of opinion of value at end of period (thousand yen) (Note 3)	829,072,000	
Gross leasable area (m ²) (B) (Note 4)	1,658,140.97	
Gross leased area (m ²) (A) (Note 5)	1,639,978.00	
Portfolio occupancy rate (%) (A)÷(B) (Note 6)	98.9	
Total number of tenants (Note 7)	1,329	
Total of all contracted rent (thousand yen) (Note 8)	4,472,214	
Total of all security deposits, etc. (thousand yen) (Note 9)	33,357,745	

(Note 1) Acquisition Price indicates the amount excluding costs required to acquire the properties, including transaction brokerage fee, taxes and public dues, etc. (the amount of transaction payment of real estate, etc. described in the sales agreement) for the Succeeded Assets (Former NMF) and Assets Acquired After Merger. On the other hand, for the Succeeded Assets (NOF/NRF), except for those described in (Note 2), since there is no significant decline in occupancy rate or other conditions that will affect the appraisal values from the reference date, the figures are determined using the appraisal values as of the end of April 2015 for assets succeeded from NOF and the appraisal values as of the end of May 2015 for the assets succeeded from NRF. Furthermore, the figures indicated are unaudited figures.

(Note 2) Acquisition Values of these assets indicates appraisal values as of the end of September 2015.
NRE Shibuya Dogenzaka Building, NOF Tameike Building, NOF Shinagawa Konan Building, Yokohama Odori Koen Building, PRIME URBAN Shinyurigaoka.

(Note 3) “Opinion of value at end of period” is the appraisal value or investigation value provided by the respective real estate appraiser. For the opinion of value at the end of the period for real estate, please refer to (Note 1) of “D. Overview of Opinion of Value at End of Period”

below in this report.

- (Note 4) The sum total of “leasable area” of each of the assets held at the end of the 1st fiscal period. “Leasable area” is the sum total area of office properties, retail properties, logistics properties, or residential properties, etc. leasable in each asset (including the area of common-use space, etc., if leased). “Leasable area” is calculated based not on that presented in the registry, but based on the area stated in the lease contract and the area calculated based on building completion drawings, etc. Accordingly, the leasable area may not be the same as the floor area based on that presented in the registry and may possibly exceed the floor area. In the case of land with leasehold right, the land area based on that presented in the registry is shown as contracted area.
- (Note 5) The sum total of “leased area” of each of the assets held at the end of the 1st fiscal period. “Leased area” is the area that is actually leased to an end-tenant (The area stated in the lease contract; provided, however, that such be limited to the area of office properties, retail properties, logistics properties, or residential properties, etc (if all of rental units are collectively leased, then the area of the entire rental units) and not include the leased area of parking space, etc. However, if the master lessee has a rent-guaranteed master lease for some or all rental units, the space is included in leased area regardless of whether or not there is a lease agreement with an end-tenant.) in each asset. In the case of land with leasehold right, the leased area of the land is shown.
- (Note 6) Gross leased area as a percentage of leasable area (rounded to first decimal place).
- (Note 7) The sum total of “total number of tenants” of each of the assets held at the end of the 1st fiscal period. In the calculation of “number of tenants,” when some or all rental units are collectively leased for the purpose of subleasing and the lessee in the lease agreement (master lease agreement) has concluded an agreement with an end-tenant (sublessee that is the actual user) for subleasing the rental units, the lessee of the master lease agreement is counted as one tenant. However, in the case of assets with a so-called pass-through master lease agreement where the rent received from the lessee in the master lease agreement is the same amount as the rent that the lessee receives from the end-tenant, the total number of end-tenants is shown. In addition, if multiple rental units in a specific asset are leased to a specific tenant, this is counted as one tenant for the asset and, if multiple assets are leased to a specific tenant, these are counted separately and the total of that number of tenants is shown.
- (Note 8) The total amount of “total contracted rent” for February 2016 of each of the assets held at the end of the 1st fiscal period (rounded down to the nearest thousand yen). “Total contracted rent” for February 2016 refers to the sum total of monthly rent and common area charges in lease agreements actually concluded with end-tenants that are valid as of the last day of February 2016 (If common-use space, etc. is leased based on the lease agreement, the rent for such is included and, if rent includes the amount equivalent to the fee for use of parking space, such amount is included. In addition, if the master lessee has a rent-guaranteed master lease for some or all rental units, the rent for the space is based on the rent, etc. in the lease agreement concluded with the master lessee.). Furthermore, regarding tenants who have been exempt from rent payment for a certain period of time in their agreements, such exemption period is not considered in the table above and the rent is calculated based on the monthly rent and common area charges payable immediately after the exemption period ends. In addition, the standard level of rent is used for tenants with sales-based rent.
- (Note 9) The total amount of “all security deposits, etc.” of each of the assets held at the end of the 1st fiscal period (rounded down to the nearest thousand yen). “All security deposits, etc.” is the sum total amount of the balance of leasehold and security deposits stated in the respective lease contract with end-tenants of each asset as of February 29, 2016 (rounded down to the nearest thousand yen). Accordingly, the sum total of “leasehold and security deposits” of the respective property may not add up to the amount shown in the total columns.

(b) Changes in Occupancy Rate, Etc.

The following is the changes in the occupancy rate, etc. of real estate under management held by NMF.

	February 29, 2016 (end of 1st fiscal period)
Number of properties	261
Total number of tenants	1,329
Gross leasable area (m ²)	1,658,140.97
Portfolio occupancy rate (at end of fiscal period) (%)	98.9

B. Price and Investment Share

The following is an overview of the assets held at the end of the 1st fiscal period (acquisition price, carrying amount, opinion of value at end of period, investment share and appraiser).

Use	Area	Property name	Acquisition price (million yen) (Note 1)	Carrying amount (million yen) (Note 3)	Opinion of value at end of period (million yen) (Note 4)	Investment share (%) (Note 5)	Appraiser

(Note 1) Acquisition Price indicates the amount excluding costs required to acquire the properties, including transaction brokerage fee, taxes and public dues, etc. (the amount of transaction payment of real estate, etc. described in the sales agreement) for the Succeeded Assets (Former NMF) and Assets Acquired After Merger. On the other hand, for the Succeeded Assets (NOF/NRF), except for those described in (Note 2), since there is no significant decline in occupancy rate or other conditions that will affect the appraisal values from the reference date, the figures are determined using the appraisal values as of the end of April 2015 for assets succeeded from NOF and the appraisal values as of the end of May 2015 for the assets succeeded from NRF. Furthermore, the figures indicated are unaudited figures.

(Note 2) Acquisition Values of these assets indicates appraisal values as of the end of September 2015.
NRE Shibuya Dogenzaka Building, NOF Tameike Building, NOF Shinagawa Konan Building, Yokohama Odori Koen Building, PRIME URBAN Shinyurigaoka.

(Note 3) "Carrying amount" is the sum total amount of the acquisition value (including various expenses required for the acquisition) of land, buildings, structures, tools, furniture and fixtures, construction in progress, and leasehold rights (including these assets in trust), less accumulated depreciation.

(Note 4) "Opinion of value at end of period" is the appraisal or investigation value provided by the respective real estate appraiser (the value calculated by the

respective real estate appraiser with the date of the 1st fiscal period-end (February 29, 2016) as the effective date of value and the value indicated by the income approach as a standard) in accordance with NMF's Articles of Incorporation and the Regulations Concerning Accounting of Investment Corporations (Cabinet Office Ordinance No. 47 of 2006). For the opinion of value at the end of the period for real estate, please refer to (Note 1) of "D. Overview of Opinion of Value at End of Period" below in this report.

(Note 5) "Investment share," which is based on the opinion of value at the end of the period, is the opinion of value at the end of the period of the respective asset as a percentage of the total amount of the opinion of value at the end of the period of the entire portfolio (261 properties in total). The figures are rounded to first decimal place. Accordingly, the sum total may not add up to 100.0.

C. Overview of Buildings, Etc.

The following is an overview of the buildings, etc. of the assets held at the end of the 1st fiscal period (use, area, property name, location, construction completion, leasable area, leased area, occupancy rate, number of tenants, operating revenue from property leasing and that as a percentage of total operating revenue from property leasing, and leasehold and security deposits).

Use	Area	Property name	Location	Construction completion	Leasable area (m ²) (Note 1)	Leased area (m ²) (Note 2)	Occupancy rate (%) (Note 3)	Number of tenants (Note 4)	Operating revenue from property leasing (million yen) (Note 5)	As a percentage of total operating revenue from property leasing (%) (Note 6)	Leasehold and security deposits (million yen) (Note 7)

(Note 1) "Leasable area" is the sum total area of office properties, retail properties, logistics properties, or residential properties, etc. leasable in each asset (including the area of common-use space, etc., if leased). The leasable area is calculated based not on that presented in the registry, but based on the area stated in the lease contract and the area calculated based on building completion drawings, etc. Accordingly, the leasable area may not be the same as the floor area based on that presented in the registry and may possibly exceed the floor area. For Shinjuku Nomura Building, the leasable area is the area calculated by multiplying the overall leasable area by the quasi co-ownership ratio of the beneficial interest in real estate trust owned by NMF as of the end of the 1st fiscal period. For NRE Tennozu Building, since the rent is the amount in which the building's overall rent is multiplied by the ownership ratio of the common areas for a master lease agreement, the leasable area is the area in which the building's overall leasable area is multiplied by the ownership ratio of the common areas. Land with leasehold interest indicates the land area in the registry as contracted space.

(Note 2) "Leased area" is the area that is actually leased to an end-tenant (The area stated in the lease contract; provided, however, that such be limited to the area of office properties, retail properties, logistics properties, or residential properties, etc (if all of rental units are collectively leased, then the area of the entire rental units) and not include the leased area of parking space, etc. However, if the master lessee has a rent-guaranteed master lease for some or all rental units, the space is included in leased area regardless of whether or not there is a lease agreement with an end-tenant.) in each asset. In the case of land with leasehold right, the leased area of the land is shown.

(Note 3) "Occupancy rate" is the leased area as a percentage of leasable area in each asset (rounded to first decimal place).

(Note 4) In the calculation of "number of tenants," when some or all rental units are collectively leased for the purpose of subleasing and the lessee in the lease agreement (master lease agreement) has concluded an agreement with an end-tenant (sublessee that is the actual user) for subleasing the rental units, the lessee of the master lease agreement is counted as one tenant. However, in the case of assets with a so-called pass-through master lease agreement where the rent received from the lessee in the master lease agreement is the same amount as the rent that the lessee receives from the end-tenant, the total

number of end-tenants is shown. In addition, if multiple rental units in a specific asset are leased to a specific tenant, this is counted as one tenant for the asset and, if multiple assets are leased to a specific tenant, these are counted separately and the total of that number of tenants is shown in the subtotal and total columns.

- (Note 5) “Operating revenue from property leasing” is the operating revenue from property leasing in the 1st fiscal period (for the property acquired during the 1st fiscal period, the operating revenue from property leasing for on and after the date of acquisition).
- (Note 6) “As a percentage of total operating revenue from property leasing” is the operating revenue from property leasing of each asset as a percentage of the sum total of operating revenue from property leasing (total operating revenue from property leasing). The figures are rounded to first decimal place. Accordingly, the sum total may not add up to 100.0.
- (Note 7) “Leasehold and security deposits” is the sum total amount of the balance of leasehold and security deposits stated in the respective lease contract with end-tenants of each asset as of February 29, 2016 (rounded down to the nearest million yen). Accordingly, the sum total of “leasehold and security deposits” of the respective property may not add up to the amount shown in the respective subtotal and total columns.
- (Note 8) Not disclosed, because consent has not been obtained from the tenant. Logistics subtotal, Retail subtotal and Total figures are the sum of the figures including not disclosed, since consent has not been obtained from the tenant.

D. Overview of Opinion of Value at End of Period

The following is an overview of the opinion of value at the end of the period (① opinion of value at end of period, ② value by income approach and capitalization rate using direct capitalization approach, ③ value by income approach, discount rate and terminal capitalization rate using DCF approach, ④ NOI, and ⑤ NOI yield (NOI / acquisition price)).

Use	Property name	Opinion of value at end of period (million yen) (Note 1)	Direct capitalization approach		DCF approach			NOI (million yen) (Note 2)	NOI yield (NOI / acquisition price) (%) (Note 3)
			Value by income approach (million yen)	Cap rate (%)	Value by income approach (million yen)	Discount rate (%)	Terminal cap rate (%)

(Note 1) "Opinion of value at end of period" is the appraisal or investigation value provided by the respective real estate appraiser (the value calculated by the respective real estate appraiser with the date of the 1st fiscal period-end (February 29, 2016) as the effective date of value and the value indicated by the income approach as a standard) listed in "B. Price and Investment Share" earlier in this report in accordance with NMF's Articles of Incorporation and the Regulations Concerning Accounting of Investment Corporations.

The appraisal or investigation value of real estate is no more than an indication of the opinion of the value of the appraised real estate at the time of appraisal by the respective real estate appraiser, etc. conducted in accordance with the Act on Real Estate Appraisal (Act No. 152 of 1963), real estate appraisal standards, etc. Reappraisal of the same real estate may result in a different appraisal or investigation value, depending on the real estate appraiser conducting the appraisal and the method or timing of the appraisal. In addition, the appraisal of real estate is not a guarantee or promise of the possibility of transactions at present or in the future at the appraised value.

Furthermore, the cost approach and income approach (direct capitalization approach and discounted cash flow approach) are used in appraisal calculations. The appraisal value is determined by the income approach if the subject real estate's price is based on an emphasis on investment profitability in the market and it is seen as an investment target for qualified institutional investors, etc. The value indicated by the cost approach is used as an index to verify the value indicated by the income approach.

"Direct capitalization approach" is a method where the net revenue in a certain period is capitalized by the capitalization rate, among methods of seeking the value indicated by the income approach (a method of seeking the estimated value of real estate by seeking the sum of the present value of the net revenue the real estate is expected to generate in the future).

"Discounted cash flow (DCF) approach" is a method where the net income and terminal value arising in multiple successive periods are discounted to present value according to their periods and totaled, among methods of seeking the value indicated by the income approach.

(Note 2) "NOI" is, in the case of properties other than properties on land with leasehold right, the net operating income using the direct capitalization approach stated in the appraisal report or investigation report and, in the case of properties on land with leasehold right, the initial-year net operating income using the DCF approach stated in the appraisal report or investigation report (rounded down to the nearest million yen). Accordingly, the sum total of "NOI" of the respective property may not add up to the amount shown in the respective subtotal and total columns.

(Note 3) "NOI yield (NOI / acquisition price)" is the amount NOI divided by the acquisition price (rounded to first decimal place). Logistics subtotal, Retail subtotal and Total figures are the sum of NOI divided by the sum of acquisition price for the properties in each categories, held at the end of the 1st fiscal period (rounded to first decimal place).

(Note 4) The asset is a quasi-co-ownership of real estate trust beneficiary rights. The proportion of NMF's quasi-shared interests is 50.1% of the total. Acquisition price in the above table, the balance sheet amount, year-end calculation price and NOI is the price of this quasi-co-ownership interest.

(Note 5) The asset is a quasi-co-ownership of real estate trust beneficiary rights. The proportion of NMF's quasi-shared interests is 51.0% of the total. Acquisition price in the above table, the balance sheet amount, year-end calculation price and NOI is the price of this quasi-co-ownership interest.

(Note 6) The discount rate of "Izumiya Senrioka" is 5.2 for the 1st to 8th year and 5.6 for the 9th to 11th year after the effective date of value.

(Note 7) The discount rate of "Izumiya Yao" is 5.5 for the 1st to 7th year and 5.9 for the 8th to 11th year after the effective date of value.

(Note 8) The discount rate of "Izumiya Obayashi" is 5.5 for the 1st to 10th year and 5.9 for the 11th year after the effective date of value.

(Note 9) The discount rate of "Ichibancho stear" is 4.7 for the 1st to 2nd year, 4.8 for the 3rd to 10th year, and 4.9 for the 11th year after the effective date of value.

(Note 10) The discount rate of "Landport Urayasu" is 4.4 for the 1st to 3rd year and 4.5 for the 4th to 11th year after the effective date of value.

(Note 11) The discount rate of "Landport Itabashi" is 4.4 for the 1st year and 4.6 for the 2nd to 11th year after the effective date of value.

(Note 12) The discount rate of "Landport Atsugi" is 4.6 for the 1st year and 4.8 for the 2nd to 11th year after the effective date of value.

(Note 13) The discount rate of "Atsugi Minami Logistics Center B Tower" is 4.7 for the 1st to 6th year and 4.9 for the 7th to 11th year after the effective date of value.

(Note 14) The discount rate of "Atsugi Minami Logistics Center A Tower" is 4.7 for the 1st to 8th year and 4.9 for the 9th to 11th year after the effective date of value.

E. Overview of Trust Beneficiary Interests

The following is an overview of the trust of individual assets of the assets held at the end of the 1st fiscal period (name of trustee and trust period). The entry for the respective item is “—” in the case of each asset of which NMF has acquired the real estate itself.

Hereafter, concerning assets for which the trust period is due to expire, whether to continue the trust or to hold the real estate itself by being issued the real estate in trust in kind upon the end of the trust will be determined based on a comprehensive consideration of the economic rationality and other factors.

Name of property subject to trust	Name of trustee	Trust period	
		Date of setting	Date of expiration
Shinjuku Nomura Building	Mitsubishi UFJ Trust and Banking Corporation	2003/12/8	2023/12/31

(Note) The following is a breakdown of the assets held at the end of the 1st fiscal period.

- Properties of which real estate itself is held 154 properties
- Properties of which are subject to trust 104 properties

F. Leasing Summary and Income/Loss Status

The status of income/loss in the 1st fiscal period is stated in accordance with “Notes Concerning Significant Accounting Policies” in “3. Financial Statements” presented above in this report. NOI, which stands for net operating income, refers to the amount of total operating revenue from property leasing, less total operating expenses from property leasing (excluding depreciation).

These figures do not represent or guarantee figures in the future.

Amounts are rounded down to the nearest thousand yen. Accordingly, the figures shown may not necessarily add up to the total figure.

1st fiscal period (from October 1, 2015 to February 29, 2016)

(Unit: thousand yen)

Property name	Shinjuku Nomura Building	NRE Tennozu Building	Kojimachi Millennium Garden	NOF Nihonbashi Honcho Building	Tennozu Park Side Building

(Note 2) Acquired on October 30, 2015. Accordingly, the figures in the table are the figures for on and after the acquisition date.

G. Overview of Engineering Report and Earthquake Risk Analysis

Upon acquisition of assets under management (excluding properties on land with leasehold right), NMF entrusts a building investigation to and obtains a report of the concerned investigation (“engineering report”) from an independent outside investigator with no vested interest. The following is the repair expenses, etc. stated in the engineering reports for each of the assets held at the end of the 1st fiscal period. However, the content of the reports is no more than an opinion of the preparers of the engineering reports stated below and there is no guarantee as to the accuracy of the content.

In addition, the following estimated amounts are as of the date of preparation of the engineering report and not as of the date of this report.

Furthermore, inflation rates and consumption taxes are not taken into account in the calculation of future repair and renewal expenses.

The portfolio PML for the assets held at the end of the 1st fiscal period, excluding properties on land with leasehold right, to total 245 properties was 1.92% and the PML for each of the assets held at the end of the 1st fiscal period is as follows. PML in the table below refers to the probable maximum loss that a property will experience in the assumed scheduled use period (50 years = useful life of a general building) due to an earthquake event of the assumed maximum scale (large earthquake with a probability of occurring once in 475 years = large earthquake with a 10% probability of occurrence in 50 years), expressed as the estimated cost associated with restoring a property damaged in connection with such an earthquake event to its condition prior to that event as a percentage of the replacement cost associated with the property, based on the report prepared by Sompo Japan Nipponkoa Risk Management Inc.

Please note that, as of the date of this report, no earthquake insurance has been or is scheduled to be taken out.

Total				2	476	46,024	1.92

(Note 1) Emergency repair expenses are the repair expenses for items having failures that will functionally hinder daily operations or items that are legally instructed for improvement but are yet to be renovated (rounded down to the nearest million yen).

(Note 2) Short-term repair expenses are the repair expenses required within one year, such as for items for which early renovation is desirable due to deterioration progressing and items for which failure is thought to arise if left unattended, other than expenses associated with standard repairs or renewal of interior finishing and equipment (rounded down to the nearest million yen).

(Note 3) The estimated amount of long-term repair expenses is the sum total amount of the long-term repair expenses projection (12-year period) (rounded down to the nearest million yen).

(Note 4) For this property, the amount in which the estimate for each building is multiplied by NMF's portion of quasi co-ownership of real estate beneficiary interests in trust is indicated (amounts less than a million yen are rounded off).

(Note 5) For these properties, the amount in which the estimate for each building is multiplied by NMF's portion of co-ownership of the common areas as stipulated in the management agreement, owned directly or through a trustee, is indicated (amounts less than a million yen are rounded off).

(Note 6) This property is comprised of two buildings, building A and building B.

H. Status of Capital Expenditures

(i) Schedule of Capital Expenditures

Of the scheduled amount of capital expenditures associated with renovation work, etc. planned (or completed) to the date of this report for the assets held at the end of the 1st fiscal period, the following are the major capital expenditures. Please note that the scheduled construction amount below includes the portion charged to expenses in accounting.

Name of real estate, etc. (Location)	Purpose	Scheduled period	Scheduled construction amount (thousand yen)		
			Total amount	Amount paid during period	Total amount already paid
Shinjuku Nomura Building (Shinjuku-ku, Tokyo)	Renewal of extra high voltage substation facility	From Feb. 2011 To Mar. 2017	460,000	—	411,507
Shinjuku Nomura Building (Shinjuku-ku, Tokyo)	Renewal of central monitoring panel	From Jul. 2014 To Oct. 2017	345,000	81,928	35,951
Shinjuku Nomura Building (Shinjuku-ku, Tokyo)	Measure works for long-period earthquake motion	From Jan. 2015 To Sep. 2016	976,000	325,650	—
NOF Shinjuku Minamiguchi Building (Shibuya-ku, Tokyo)	Renewal of air-conditioning system	From Jun. 2016 To Aug. 2017	275,000	—	—
NOF Utsunomiya Building (Utsunomiya-shi, Tochigi)	Renewal of air-conditioning system	From Jul. 2015 To Jul. 2016	324,000	64,800	64,800

(ii) Capital Expenditures During the Fiscal Period

The following is an overview of the major construction work falling under the category of capital expenditures that were conducted during the 1st fiscal period for the assets held as of the end of the 1st fiscal period. Capital expenditures during the 1st fiscal period were 2,335,419 thousand yen and, when combined with the 1,555,616 thousand yen repair expenses charged to expenses during the 1st fiscal period, a total of 3,891,036 thousand yen in construction was implemented.

Name of real estate, etc. (Location)	Purpose	Construction period	Construction amount (thousand yen)
Otemachi Tatemono Gotanda Building (Shinagawa-ku, Tokyo)	Renewal of air conditioning	From Jul. 2015 To Jan. 2016	147,829
NOF Shin-Yokohama Building (Yokohama-shi, Kanagawa)	Renewal of packaged air conditioning system	From Nov. 2015 To Feb. 2016	84,807
Morisia Tsudanuma (Narashino-shi, Chiba)	Renewal of escalator control system	From Dec. 2015 To Feb. 2016	80,126
Shinjuku Nomura Building (Shinjuku-ku, Tokyo)	Renewal of central monitoring	From Jul. 2014 To Oct. 2015	78,790
Other Properties	Improvement of features	From Oct. 2015 To Feb. 2016	1,943,865
Total			2,335,419

(iii) Cash Reserved for Long-Term Repair Plans (Reserve for Repairs)

Based on long-term repair plans formed for each property, NMF sets aside the cash reserves to provide for medium- to long-term future large-scale repairs, etc. from cash flows during the period.

(millions of Yen)

	1st fiscal period from Oct. 1, 2015 to Feb. 29, 2016
Reserve for the beginning of the period	6,070
Reserve for the current fiscal period	1,123
Reversal of reserve for the current fiscal period	547
Reserve brought forward	6,647

I. Status of Major Tenants

Not applicable.

J. Top 10 Tenants by Leased Area

The following are those tenants of the assets held at the end of the 1st fiscal period of which rank in the top ten when a tenant's leased area is expressed as a percentage of the sum total of the leased area of the entire portfolio as at February 29, 2016.

No.	Tenant name (Note 1)	Use	Property name	Total leased area (m ²)	Share (%) (Note 2)
1	Nomura Real Estate Partners Co., Ltd.	Residential	Total of PROUD FLAT' Shirogane-Takanawa, and 112 others	178,878.94	10.9
2	Fukuyama Transporting Co., Ltd.	Logistics	Landport Urayasu	92,389.48	5.6
			Sagamihara Onodai Logistics Center		
3	Izumiya Co., Ltd.	Retail	Izumiya Senrioka	70,311.49	4.3
			Izumiya Yao		
			Izumiya Obayashi		
4	Nippon Express Co., Ltd.	Logistics	Kawaguchi Ryoke Logistics Center	67,691.71	4.1
			Hanyu Logistics Center		
5	Amazon Japan Logistics K.K.	Logistics	Landport Kawagoe	56,377.76	3.4
6	Neovia Logistics Services, LLC	Logistics	Sagamihara Tana Logistics Center	50,450.00	3.1
7	Yokohama Okadaya Co., Ltd.	Retail	Yokosuka More's City	48,193.96	2.9
			Kawasaki More's		
8	Mitsui-Soko Logistics Co., Ltd.	Logistics	Ota Nitta Logistics Center	42,328.00	2.6
9	ASKUL Corporation	Logistics	Landport Itabashi	37,276.71	2.3
10	Not disclosed	Retail (land with leasehold right)	Total for 15 Mitsubishi Motors properties	35,432.72	2.2
Total for top 10 tenants				679,330.77	41.4

(Note 1) In the case of assets with a so-called pass-through master lease agreement where the rent received from the lessee in the master lease agreement is the same amount as the rent that the lessee receives from the end-tenant, end-tenants is shown as a tenant, and lessee is not shown as a tenant. However, for the residential facilities, master lessee is shown as a tenant, and area is shown that actually entered into the tenant agreement with end tenants. "Tenant name" is not disclosed for some tenants, due to unavoidable circumstances.

(Note 2) "Share" is the sum total of leased area of the respective tenant as a percentage of the sum total of leased area of the entire portfolio of assets held by NMF at the end of this fiscal period.

K. Status of Major Properties

Not applicable.

L. Overview of Leasing to Interested Parties

Tenant name	Property name	Leased area (m ²)
Nomura Real Estate Partners Co., Ltd.	Shinjuku Nomura Building	1,021.26
	NRE Yotsubashi Building	1,024.91
	Total of PROUD FLAT Shirogane-Takanawa, and 112 others	178,878.94
