Contribute to increasing profits from the 14th FP due to the impact of Free Rent (partial contribution to profits in 13th FP)

II - 2. Results of Strategy for Recovery of Dividend Level in 12th FP

Property Replacement

Nittetsu Honmachi Building
(Determined disposition in 11th FP, and completed in 12th FP)

Replacement

Effect of Replacement

- > Accrued Capital Gains (¥256 million)
- ➤ Reserved internally portions of capital gains (¥78 million) by utilizing the exceptional taxation to reinforce financial standing
- Accumulated the cash dividend in 12th FP (accumulated approx. ¥1,100)
- > Secured further stability of portfolio

《Utilize Sponsors' Strengths》

Realized effective disposition gaining best opportunity by brokerage of Sumitomo Trust and Banking (present Sumitomo Mitsui Trust Bank)

[Assumed risk regarding the property]

Due to large supply of offices in line with redevelopment of areas around Osaka Station

- ① Risk of worsening supply-demand balance
- ② Tenants' moving out risk is expanding, vacancy rate is increasing in Honmachi area
- ③ Concentration of rent revisions from 13th to 15th FP, increasing risks of rent reduction

[Focus upon acquisition]

- ① High transport convenience: About a 3 minute walk from Kayabacho Station on the Tokyo Metro Hibiya Line and about a 4 minute walk from the same station on Tozai Line, further it has good access to Nihonbashi Station that is within walking distance
- ② Expected steady demand from business persons due to proximity to the central business districts of Otemachi and marunouchi Areas
- 3 Construction plans with increased scarcity value due to construction of studio apartments (less than 40m²) limited due to being district planning area of Chuo Ward

II - 2. Result of Strategy for Recovery of Dividend Level in 12th FP

IV. Growth Strategy: Leaping for the Next Stage

IV - 1. Market Prospects

[Present state]

Real Estate Leasing Market

[Future prospects]

- Vacancy rates remain at a high level due to the large supply of office buildings in Central Tokyo in the first half of this year (leading to the generation of after-relocation vacancy and accelerated polarization by building grade)
- ♦ Office rent levels still remain weak, though the range of decrease in rent levels has decelerated
- ◆ Studio and family residences with high convenience continue to show steady performance

- Supply of office floors in Central Tokyo in 2013 expected to decrease in volume to less than half of the previous fiscal year, and the vacancy rate will be shown a recovering trend, starting in the second half of fiscal 2012
- Office rent is expected to hit the bottom due to the post-quake reconstruction demand becoming in earnest and steady corporate eranings.
- However, Japanese economic situations and corporate performance is likely to remain unpredictability due to the impact of the yen's appreciation and the European debt problem. Close monitoring when office rents bottom out will be necessary.
- ⇒ Top REIT's strategy
 Continue efforts to further strengthen relations with tenants

Real Estate Transaction Market

[Future prospects]

[Present state]

- ◆Information on high-grade office properties available for sale is limited (repayment of borrowings is primarily being conducted through refinance due to the improved financing environment)
- ◆Buyers compete over high-grade office buildings available for sale in central Tokyo, which are scarce, and show strong willingness to buy (buyers are primarily REITs, private placement funds and railroad and real estate companies)
- ◆The market for rental residential property transactions remains steady

- Will the price of high-grade office properties show an upward trend, given the scarce properties available for sale and strong willingness of REITs and other buyers?
- Market for rental residential property transactions will remain steady, but tend to overheat in Central Tokyo and the Tokyo Metropolitan Area
- ⇒ Top REIT's strategy Focus acquisitions by gathering information on high-grade properties available for sale

Financial / Capital Market

[Present state]

- De facto zero interest rate monetary policy maintained and continued by the Bank of Japan
- ◆Fund procurement environment is relatively favorable, with financial institutions maintaining positive lending attitude
- ◆The J-REIT market, which had shown a recovering trend primarily due to the Bank of Japan conducting monetary easing and increasing the purchase amount of and intermittently implementing purchase of J-REIT units, has entered an adjustment phase due to the European debt problem becoming more serious

[Future prospects]

- ◆Market interest rates will remain stable at low levels for some time
- ◆Close monitoring will be continuously required for the European debt problem (impact on the J-REIT market conditions and financial institutions)
- ⇒Top REIT's strategy
- •Strive to implement steadily refinance.
- •While closely monitoring the market environment, select fund procurement measures flexibly.

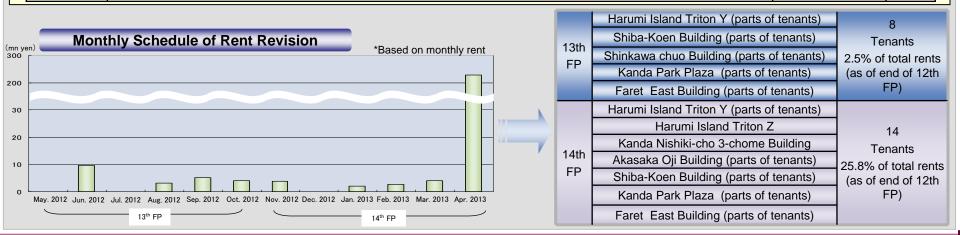

IV - 2. The Current Management Policy

The Current Management Policy

- ♦ Secure foothold for revenues through flawless management of existing properties
 - O Make effort to lease up vacant spaces including the remaining one floor of Akasaka Oji Building along with implementing measures to prevent tenants from moving out by continuously strengthening tenant relations.
 - O Minimize range of decrease in rent revision by conducting persistent negotiations utilizing strong tenants relations with tenants
- ◆ Stable Financial Management Strive to refinance -
 - O 12th FP: **¥17.5bn** due for repayment on June 29, 13th FP: **¥9.8bn** due for repayment on November 30, **¥9.3bn** due for repayment on March 27,2013
- Accumulate greater revenues with acquisition of new properties
 - O Acquire superior office properties with excellent location in Central Tokyo and major cities across the country
 - O Utilize the sponsor's strengths (properties owned or brokered by sponsors) as well as various information channels

Asset Class	Property acquisition target	Portfolio Share	Stance			
	◆ Excellent location in Central Tokyo and major cities across the country	Approx.				
Offices	Offices ♦ High-quality specifications					
	◆ Properties with strong competitiveness (ability to attract tenants, stable operations over long term)	75%				
Oth on the on	◆ Focus on residential properties	A				
Other than	·Located in Central Tokyo, surrounding areas and major cities close to railway stations and with excellent transit access	Approx. 25%	Δ			
offices	·Stable occupancy rates and rent levels	25%				

IV - 3. Growth Strategy for the Next Stage

Strategy

Growth

Continued Implementation of Growth Strategy for the Next Stage

◆ Fully utilize the Top REIT Edge

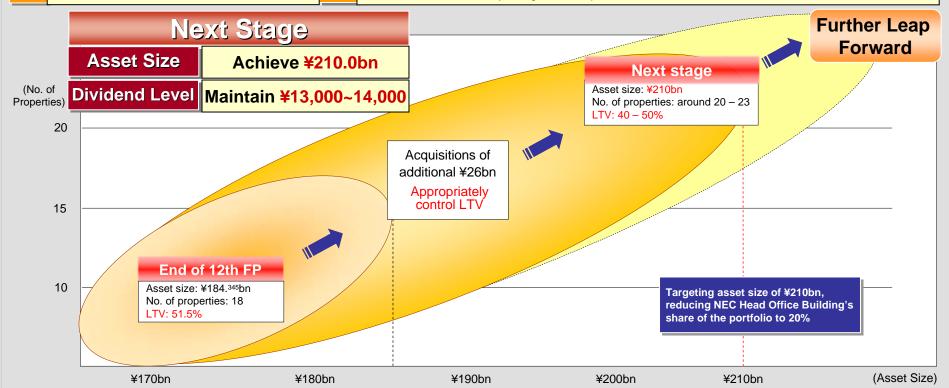

Sponsor Strength

Superior Portfolio

Growth Methods

◆ Implement growth strategy with an extreme focus on the dividend level (¥13,000~14,000) ◆ While securing a foothold for revenues, acquire competitive and highly profitable properties

- ◆ Flexibly select fund procurement means according to the market environment
 - ·Bank loans: Flexibly utilize strong bank formation
 - •Investment corporation bonds: Consider in view of market environment, etc.
 - Capital increases through public offerings: Consider investment unit price levels and property returns, as well as amount of net assets and dividend
- ◆ Consider M&A and joining of new sponsors

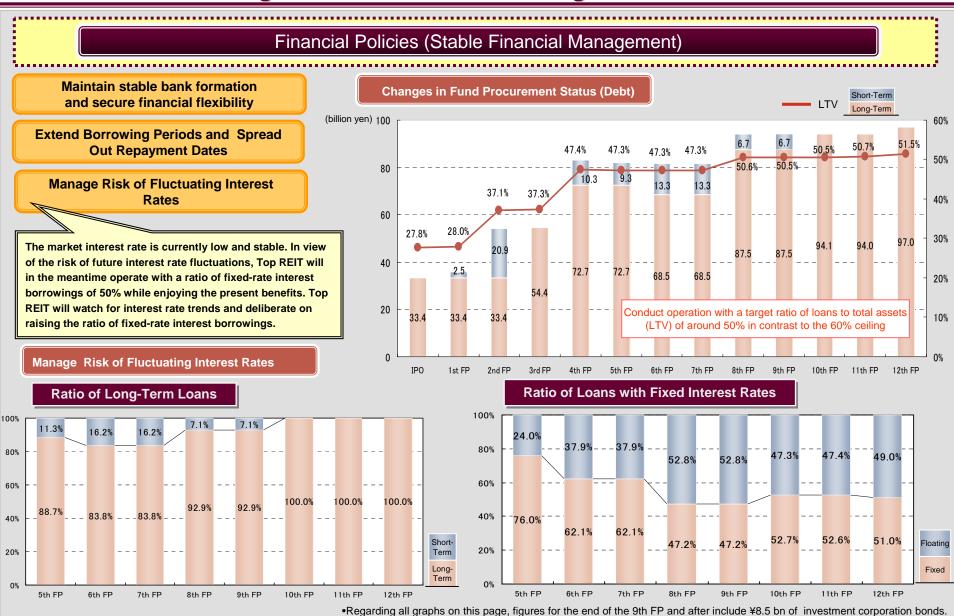

V. Financial Strategies

V - 1. Financial Strategies: Stable Financial Management

V - 2. Financial Strategies: Financial Status / Extending Borrowing Periods

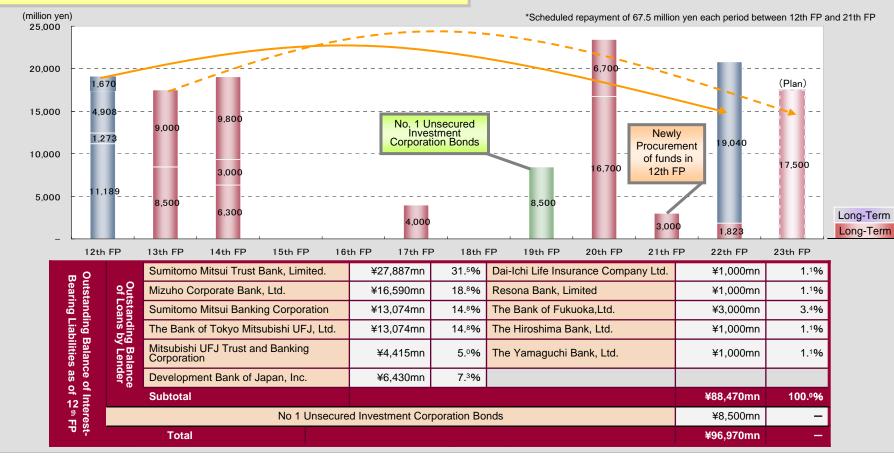

Refinancing Status and Extending Borrowing Periods

Refinance for 12th Fiscal Period

- Nov. 2011: Total ¥19.04bn in long-term loans⇒ Refinanced with long-term loans (floating rate)
- Mar. 2012: Procured additional funds of ¥3bn to acquire new property ⇒ Long-term loans (floating rate)
- Both implemented by syndicated loan with major banks which Top REIT has conducted business since listing
- · Will continue to maintain stable bank formation and work to extend remaining periods of loans
